PH

- * Efficient, economical and stable in use dilution.
- * Compatible with all chemicals used in pool water and will not damage tile, concrete, metal or plastics.
- * Keeps pool water free and sparkling, clear of visible algae, algae slime and green brown colors.
- * Imparts tone and a pleasant "feel" to swimming pool water.
- * Improves filter operation and cuts down need for other chemicals.

DIRECTIONS

Initial Application: To a cleaned pool add 1/2 gal to 12,500 gals of water, or ratio thereof. If pool has visible algae growth use initial application dose, then vacuum after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment. When pool is free of visible algae, use recommended maintenance dose. Pour directly into pool water around perimeter of pool.

Maintenance Dose: Use 1 pint to 12,500 gals of water every 5 to 7 days. When weather is hot or bathing load is heavy, use this dosage every 5 days or as necessary.

Booster Dose: Immediately after every rain add 1 pint to 12,500 gals of water as above. **Important:** Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.

Pool-side Surfaces: After cleaning surfaces, use 2 oz to four gals of water for sanitizing or 2 oz to two gals of water for disinfecting. Apply by wiping, mopping or scrubbing so as to thoroughly wet the surface.
