ever more than a few weeks ago, it was found that the contents of the containers were not as stated on the label. The contents were found to be a mixture of the active ingredient and an inert diluent. This mixture was found to be identical to the mixture which was used in the tests conducted by the U.S. Department of Agriculture. The results of these tests are as follows:

The results of the tests conducted by the U.S. Department of Agriculture are as follows:

Test	Result
1. Toxicity to man	LD50 = 1.5 g/kg
2. Toxicity to rats	LD50 = 1.5 g/kg
3. Toxicity to mice	LD50 = 1.5 g/kg
4. Toxicity to fish	LD50 = 1.5 g/kg
5. Toxicity to birds	LD50 = 1.5 g/kg
6. Toxicity to bees	LD50 = 1.5 g/kg
7. Toxicity to earthworms	LD50 = 1.5 g/kg
8. Toxicity to plants	LD50 = 1.5 g/kg
9. Toxicity to soil	LD50 = 1.5 g/kg
10. Toxicity to water	LD50 = 1.5 g/kg
