COOLS
ALL ELECTRIC SHAVERS**

WARNING:

Keep out of the Reach of Children
See other precautions on side panel

Use Lime-Scented SHAVA LUBE® daily on your shaver BEFORE shaving for closer, faster shaves.

RECOMMENDED FOR ALL MAKES OF ELECTRIC SHAVERS

DIRECTIONS

Shake can before using.

FOR IMMEDIATE PICK-UP IN SHAV-ER SPEED start shaver, then spray directly on heads. Short bursts are adequate.

REDUCES RAZOR DRAG, INCREASES POWER, PREVENTS WEAR.

LUBRICATES, DISINFECTS AND COOLS the cutter heads for improved performance.

It's common sense

Any liquid spray, lubricant or solvent, regardless of any claims made, does not clean an electric shaver because it tends to clog the hair & skin particles in the shaver head. Therefore we suggest that you thoroughly clean your shaver BEFORE you lubricate.

SHAVA LUBE®, the PRE-SHAVE lubricant for all electric shavers. Lubricates rapidly moving parts and thoroughly disinfects and cools. Keeps shaver heads sharp!

Use this companion product, SHAVA KLEEN®, the specially designed AFTER-SHAVE jet cleaner for all electric shavers. The modern, effective way for daily shaver care.
