

DIRECTIONS FOR USE

GENERAL STANDARDS

Mix one part of this product to 100 parts of water to make a stable, milky emulsion for cleaning and deodorizing under ordinary conditions. Under unusually foul conditions concentrations ranging from three to ten percent are used. In making solutions a better emulsion will be formed if the water is added to the concentrated product rather than vice versa. Warm water is preferable. Before applying this product the areas and surfaces where bacteria may exist should be washed free of loose dirt and the disinfecting solution applied so as to wet the surface thoroughly.

USES

FOR DISINFECTING, DEODORIZING, CLEANING AND REFRESHING

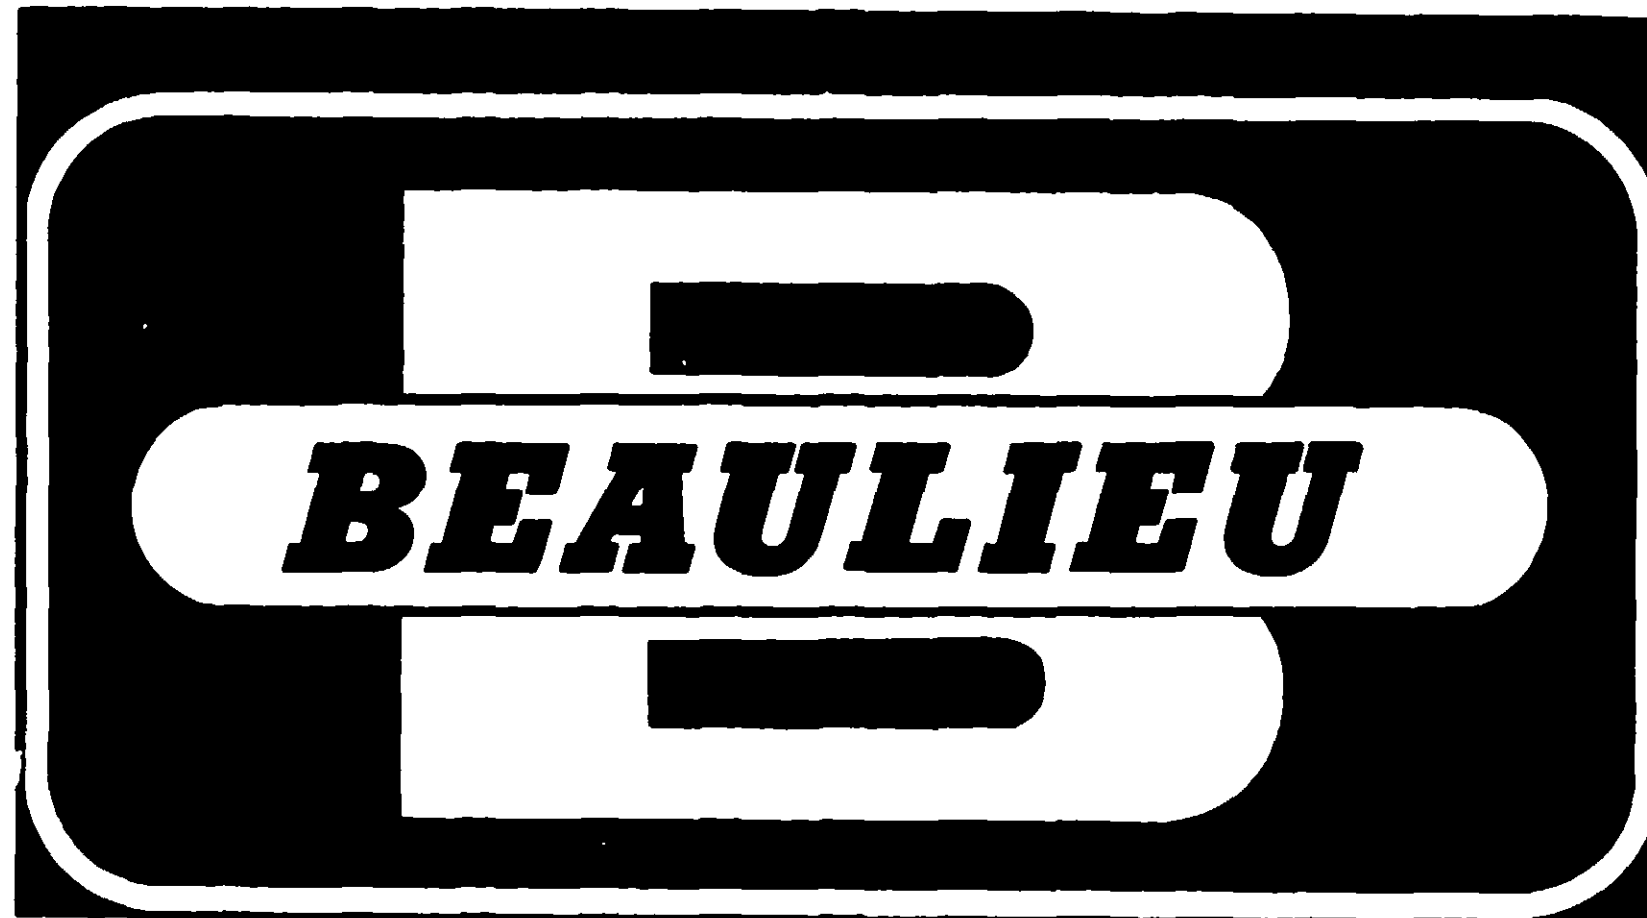

KITCHENS • BATHROOMS • TILE & ENAMEL SURFACES
LAVATORIES • URINALS • SEATS & BOWLS
GARBAGE RECEPTACLES

Walls • Floors • Sinks • Drain Boards • Animal Pens
Chicken Coops • Feed Troughs

U.S.D.A. Reg. No.

Code

Made in U.S.A.

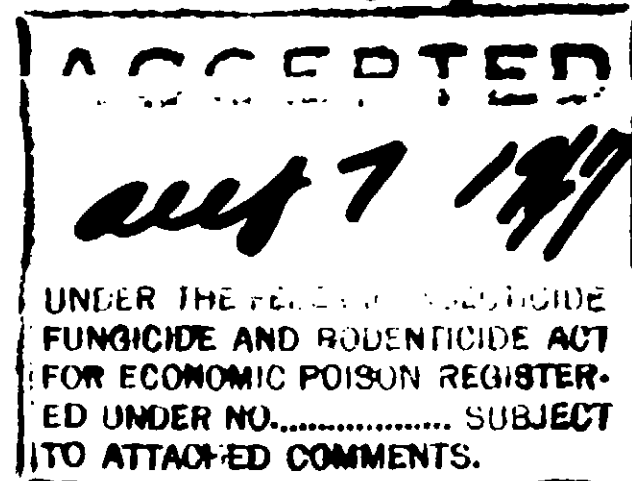

PINE OIL DISINFECTANT

ACTIVE INGREDIENTS:

Steam Distilled Pine Oil and Anhydrous Soap	90 %
INERT INGREDIENT: Water	10 %
TOTAL	100 %

CAUTION: KEEP OUT OF REACH OF CHILDREN
