# LIME-DIS

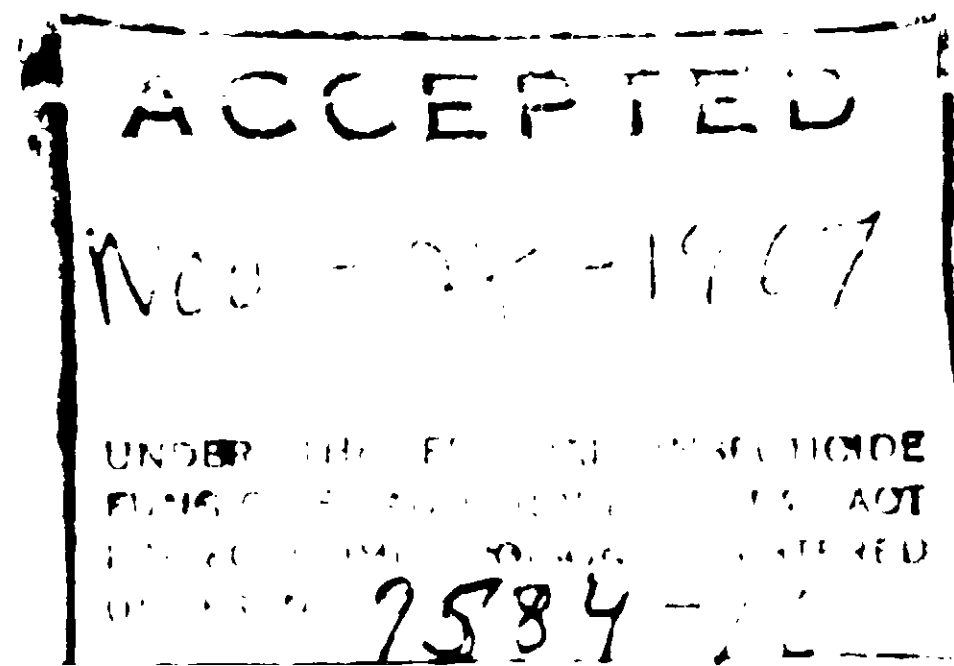

**Pleasant Lime Odor/Phenol Coefficient 5 by A.O.A.C. Method  
DISINFECTANT / BACTERICIDE / GERMICIDE**

**CAUTION:** KEEP OUT OF REACH OF CHILDREN  
See Left Panel for Additional Cautions

## DIRECTIONS

- To disinfect floors, walls, bathrooms, showers, sinks, etc., use 3 ounces to a gallon of water. Before applying LIME-DIS disinfectant, the areas and surfaces where bacteria may exist should be washed free of loose dirt and the disinfecting solution applied so as to wet the surface thoroughly.
- As a deodorant spray use 4 ounces to a gallon of water.
- To disinfect floors to prevent the growth of Athlete's Foot Fungi, in locker rooms, etc., use 1 part of this product to 25 parts of water.

For maximum effectiveness the floors and locker rooms should be disinfected with the above solution daily and oftener if deemed necessary.
