

EXTERMINATING®

SUBTERRANEAN TERMITES— DIRECTIONS FOR NON PROFESSIONAL USE.

Buildings having basements or crawl space. Dig a trench along the outside of the foundation walls. In brick or hollow block or concrete foundations, dig a trench to, but not below, the footings. Then as the trench is refilled, treat the soil at a rate of 4 gallons per 10 linear feet for each foot of depth. A trench of 3 feet deep would require 12 gallons per 10 linear feet.

The objective is to establish a treated soil barrier which will prevent termite entry. Other critical areas may also require treatment. It is suggested that you consult the state extension service for advice.

WARNING:

May be fatal if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing spray mist. In case of contact with skin, wash with soap and water. Avoid contamination of feed and food-stuffs. Keep out of reach of children.

This product is toxic to fish, birds and other wildlife. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

ANTIDOTE:

EXTERNAL—In case of spillage on skin, wash promptly with soap and water.
INTERNAL—Emetic of 1/2 tablespoonful mustard in tumbler of water. Call a physician.

WINGED ANT

MIXING DIRECTIONS

For easiest application, use a Hose End Sprayer, available at your dealer. It attaches to a garden hose, and delivers a 1% emulsion

(Recommended). Detailed mixing directions are on the applicator.

For use with Sprinkling Can or Pressure Type Garden Sprayer: Thoroughly mix 1 part of Nationwide 75 with 99 parts of water (2-2/3 tablespoons per gallon) for a 1% emulsion (recommended treatment.)

Nationwide 75 Concentrate	Recommended Treatment	Minimum Treatment
	For 1% Solution Mix with water to make gallons listed below.	For 1/2% Solution with water to make gallons listed below.
1 gallon	100	200
1 quart	25	50
1 pint	12	25

Do not apply Nationwide 75 where ground is frozen.

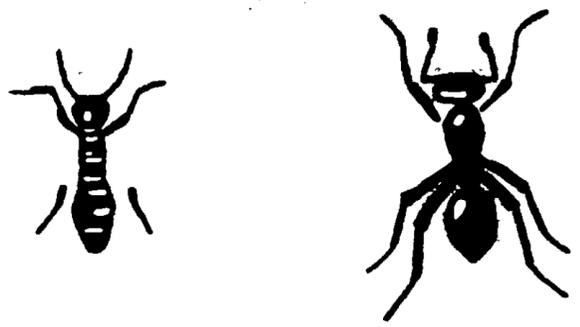

EPA Registration No. 9501-7
EPA Establishment No. 9501-OH-1
