Total Nitrogen (N), Not less than.....20.00%

20% Urea Nitrogen

Net Weight: 4 lbs 12 oz.

Manufactured by: Nationwide Chemical Products, Inc.

P. O. Box 13027

Hamilton, Ohio 45013

EPA Registration No. 9591-

EPA Est. No. 9591-DH-2

WHERE TO USE:

LIQUID WEED & FEED may be used on Bahia, Bermuda, Bluegrass, Fescue, Rye or Zoysia lawns, vacant lots, playgrounds, and other similar areas where broadleaf weeds are present. This product is especially effective on all hard-to-kill weeds such as Poison Oak, Sheep Sorrel and Spurge. In addition LIQUID WEED & FEED controls most other broadleaf weeds, including sensitive weeds such as Chickweed, Clover, Dandelion, Knotweed and Plantain.

WHEN TO USE:

1. Spray at any time during the growing season when weeds are actively growing.
2. On new lawns, wait until the grass has reached a height of 2 inches before making an overall spray treatment. Wait 3 weeks before putting new grass seed or stolons down in the bare spots.
3. Poor weed control may result if spray is applied during drought or just before rain.
4. For best results, mow 1 to 2 days before treating.
5. Do not water lawn within 24 hours after treatment.

HOW TO USE:

SHAKE WELL BEFORE USING.

*Connect spray nozzle to Garden hose; remove safety cap from container; attach tube to applicator and insert tube section. Attach container to end of nozzle.

*Turn on water; place finger over hole on right side of nozzle and proper ratio of LIQUID WEED & FEED will automatically be dispersed. Spray directly over area requiring application evenly and uniformly.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and condition of application equipment will vary, seller makes no claims other than those stated on this label.
