Office of Pesticide Programs  
Registration Division (7505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
9591-166

Date of Issuance:  
4 OCT 1995

NOTICE OF PESTICIDE:  
  X   Registration  
     Reregistration

Term of Issuance:  
Conditional

Name of Pesticide Product:  
Insecticide 110

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Nationwide Chemical Products, Inc.  
P.O. Box 13027  
Hamilton, Ohio 45013

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 9591-166".
- b. Fix the editorial error in the "Keep Out of Reach of Children" statement (delete the first "Children")

Signature of Approving Official:

RPK

Date:

4 OCT 1995

EPA Form 8570-6

ACCEPTED  
with COMMENTS  
In EPA Letter Dated

4 OCT 1995

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.  
9591-166

293

page 2  
EPA Reg. No.

- c. Under the "Physical or Chemical Hazards" section, left justify the sentence, "Do not use, pour, spill or store near heat or open flame."
- d. Fix the "Pesticide Disposal" language so that it reads, "Pesticide spray mixture or rinse water that cannot be used according to label instructions..."

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

RPK

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

### ENVIRONMENTAL HAZARDS

This product toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

### PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame

NET CONTENTS: \_\_\_\_\_

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE AND SPILL PROCEDURES:** Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, filler's earth, etc. Dispose of with chemical waste.

**PESTICIDE DISPOSAL:** Pesticide spray mixture or rinse water that cannot be used in according to label instructions must be disposed of at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by approved State and local procedures.

**SPACE SPRAY:** For rapid control of houseflies, fruit flies, sand flies, wasps and hornets. Close doors and windows and use a good machine adjusted to deliver a fine mist. Direct spray room to fill the entire area with mist, using 1 to 2 ounces per treated area and ventilate before reoccupying. Keep the area free of food. Repeat application when reinfestation occurs

**SURFACE APPLICATION:** To control roaches, silverfish, and other insects, use course wetting spray directed into locations where these insects hide. Spray moldings, cabinets, shelves, sinks, door and window frames, corners and into cracks and crevices, hitting insects with the spray as treatment as necessary. Against ant infestations, treat shelves, drawers, ant runs, trails, baseboards, thresholds and other places of ant activity as treatment as necessary. In controlling fleas and brown dog ticks, spray toward the lower wall portions, baseboards, rugs, carpets, etc. In quarters, kennels and bedding should also be sprayed. Treat mattresses liberally to top, ends, sides and bottom of mattresses, springs and folds. Spray springs and frame, directing the liquid into all cracks and folds. baseboards, moldings, floors, closets and bedroom furniture. Pay attention to protected bedbug hiding and breeding places. For control of moths and carpet beetles, remove infested articles from the premises. If possible, air several hours in direct sunlight. Apply spray liberally to articles and storage, directing the liquid into cracks, joints and crevices. Articles should be treated by holding the spray nozzle at least 3 feet away from the surface. Spray lightly to the seams to avoid the possibility of staining. Treat all surfaces and all exposed and accessible surfaces of over stuffed furniture. If made of rubber or are rubber coated, to prevent expansion or contraction, unless the articles are stored in moth-tight containers. To control rice weevil, sawtoothed grain beetles, confused flour beetle, beetle, cadelles, meal worms, grain mites, Angoumois grain moth, Mediterranean flour moth in food storage areas: if possible, remove food products: otherwise, fumigation or other effective treatment. Use an approved product intended for this purpose. Apply this spray liberally to cabinets, bins, pantries, and similar food storage areas with particular attention to niches, and other hiding places.

**FOG OR VAPOR SPRAY:** To kill accessible or exposed stages of insects (excepting clothes moths, bedbugs, and carpet beetles) in a room, use thermal or compressed air equipment. Fill the entire area with a fine mist. Repeat treatment as needed. Avoid contact with humans. Remove pets, birds, and cover fish aquaria before spraying. The use of this product in food processing plants should be avoided if the plant is not in operation. All food processing surfaces should be thoroughly wash treated surfaces with an effective cleaner and sanitizer before using.

**ON ANIMALS:** To protect animals from horn flies, house flies, and other insects, use a light mist sufficient to wet the tips of the hair. To control stable flies, use 2 ounces per adult animal, sufficient to wet the hair, but not to saturate. Apply or twice daily or at intervals necessary to give continued protection. To control horn flies, apply the spray lightly to infested areas, using a stiff brush to apply the spray. Use 2 ounces or less per animal. Repeat every two to three weeks. In **BARNES, MILK ROOMS, DAIRY PLANTS, SLAUGHTER AND MEAT PACKING PLANTS, flies, mosquitoes, and gnats,** apply as a fog or fine mist, covering the upper corners of the room until the area is filled with mist, using 1 to 2 feet of space. For best results, close windows and doors before spraying. Vacate to fifteen minutes. Vacate the area and ventilate before reoccupying.
