# 231 ALKALINE SANITIZER

### HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

#### WARNING!

Harmful if swallowed. May cause eye damage. Do not get in eyes, on skin or on clothing. Do not breathe dust.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Do not contaminate by cleaning of equipment or by disposal of wastes into these waters.

#### CHEMICAL OR PHYSICAL HAZARDS

Moisture contamination may liberate irritating and hazardous chlorine containing gases. Oxidizing material. Do not mix with other chemicals. Contact with organic matter may cause fire. Decompose at 350-475°F with liberation of harmful gases.

#### STORAGE AND DISPOSAL

Store in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine-containing gases. Oxidizing material. Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition isolate container in open air or well ventilated area if possible. Flood with large volume of water if necessary. Do not reuse empty container. Rinse or dry container thoroughly with clean water before recharging. This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

ACTIVE INGREDIENT  
Sodium Dichloro S-triazinetrione Dihydrate 25  
provides 14% available chlorine

INERT INGREDIENTS 75  
100%

NET CONTENTS: 50 Lbs. (22.68 Kg)

#### WARNING!

#### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause eye damage. Do not get in eyes, on skin or on clothing. Do not breathe dust. Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition isolate container in open air or well ventilated area if possible. Flood with large volume of water if necessary. Do not reuse empty container. Rinse or dry container thoroughly with clean water before recharging. This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

### DESCRIPTION

ICC 231 ALKALINE SANITIZER is recommended for use on hard, non porous surfaces, on dishes, glassware, food processing equipment or utensils, including dairy and brewery equipment and utensils.

It is available in 50 lb. bags. Use this product in accordance with its labeling.

### DIRECTIONS

Prepare sanitizing solution by dissolving 1 oz. or 2 oz. of ICC 231 ALKALINE SANITIZER per 10 gal. of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2 to 5 minutes and then wipe excess away. Rinse items and surfaces with potable water prior to use.

The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes of contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional ICC 231 ALKALINE SANITIZER should be added to maintain minimum concentration of 100 ppm available chlorine.
