232 ACIDIC WASH SANITIZER

HAZARDS TO HUMANS (AND DOMESTIC ANIMALS)

WARNING!

Harmful if swallowed. May cause eye damage. Do not get in eyes, on skin or on clothing. Do not breath dust.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Do not contaminate by cleaning of equipment or disposal of wastes into these waters.

CHEMICAL OR PHYSICAL HAZARDS

Moisture contamination may liberate irritating and hazardous chlorine containing gases. Contains oxidizing materials. Do not mix with other chemicals. Contact with organic matter may cause fire. Decompose at 350-475°F with liberation of harmful gases.

STORAGE AND DISPOSAL

Store in a cool, dry, well-ventilated area. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Contains oxidizing materials. Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475°F with liberation of harmful gases. In case of decomposition, water contained in open air or well-ventilated area if possible. Flush with large volume of water if necessary. Do not reuse empty container. Rinse empty container thoroughly with clean water before discarding. This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this label to all containers specified on this label.

ACTIVE INGREDIENT		28
Sodium Dichloro-s-triazinetrionate, tris (2-hydroxyethyl) ester		
10% (30% available chlorine)		12
INERT INGREDIENTS		100

NET CONTENTS: 50 Lbs. (22.68 Kg)

WARNING!

KEEP OUT OF REACH OF CHILDREN

Caution: This acid wash sanitizer is highly corrosive to skin and eyes. Avoid contact with skin and eyes. If contact occurs, flush immediately with large amounts of water. For more information, see the MSDS.

For use only in food processing equipment. Do not use for general cleaning purposes. Do not use on food contact surfaces. Do not use on aluminum, brass, or other metals. Do not use on stone, marble, or other natural materials. Do not use on electrical equipment. Do not use on painted surfaces. Do not use on wood. Do not use on concrete. Do not use on asphalt. Do not use on fabric. Do not use on leather. Do not use on rubber. Do not use on plastic. Do not use on glass. Do not use on metal. Do not use on any surface that is not specifically listed as compatible with this product. For more information, see the MSDS.

DESCRIPTION

ICC 232 ACIDIC WASH SANITIZER is a highly effective, low-foaming, non-corrosive spray sanitizer and disinfectant for use on food processing equipment. This formula is specifically designed for use on eggs. ICC 232 ACIDIC WASH SANITIZER is a strong, non-foaming, low-foaming sanitizer for use on food processing equipment and utensils, including dairy and brewery equipment.

For use only in food processing equipment. Do not use for general cleaning purposes. Do not use on food contact surfaces. Do not use on aluminum, brass, or other metals. Do not use on stone, marble, or other natural materials. Do not use on electrical equipment. Do not use on painted surfaces. Do not use on wood. Do not use on concrete. Do not use on asphalt. Do not use on fabric. Do not use on leather. Do not use on rubber. Do not use on plastic. Do not use on glass. Do not use on metal. Do not use on any surface that is not specifically listed as compatible with this product.

DIRECTIONS

For use on eggs: 1. Fill a spray bottle with 1/2 cup of ICC 232 ACIDIC WASH SANITIZER and 1/2 gallon of water. The solution should be 100 ppm available chlorine. 2. Spray the sanitizer on the egg. 3. Rub the sanitizer on the egg with a clean cloth. 4. Rinse the egg with clean water. 5. Repeat steps 1-4 for each egg. For use on food processing equipment: 1. Fill a spray bottle with 1/2 cup of ICC 232 ACIDIC WASH SANITIZER and 1/2 gallon of water. The solution should be 100 ppm available chlorine. 2. Spray the sanitizer on the equipment. 3. Rub the sanitizer on the equipment with a clean cloth. 4. Rinse the equipment with clean water. 5. Repeat steps 1-4 for all equipment. For use on food contact surfaces: 1. Fill a spray bottle with 1/2 cup of ICC 232 ACIDIC WASH SANITIZER and 1/2 gallon of water. The solution should be 100 ppm available chlorine. 2. Spray the sanitizer on the surface. 3. Rub the sanitizer on the surface with a clean cloth. 4. Rinse the surface with clean water. 5. Repeat steps 1-4 for all surfaces. For use on food processing equipment and utensils: 1. Fill a spray bottle with 1/2 cup of ICC 232 ACIDIC WASH SANITIZER and 1/2 gallon of water. The solution should be 100 ppm available chlorine. 2. Spray the sanitizer on the equipment and utensils. 3. Rub the sanitizer on the equipment and utensils with a clean cloth. 4. Rinse the equipment and utensils with clean water. 5. Repeat steps 1-4 for all equipment and utensils. For use on food processing equipment and utensils: 1. Fill a spray bottle with 1/2 cup of ICC 232 ACIDIC WASH SANITIZER and 1/2 gallon of water. The solution should be 100 ppm available chlorine. 2. Spray the sanitizer on the equipment and utensils. 3. Rub the sanitizer on the equipment and utensils with a clean cloth. 4. Rinse the equipment and utensils with clean water. 5. Repeat steps 1-4 for all equipment and utensils.

This sanitizer is for use only in food processing equipment. Do not use for general cleaning purposes. Do not use on food contact surfaces. Do not use on aluminum, brass, or other metals. Do not use on stone, marble, or other natural materials. Do not use on electrical equipment. Do not use on painted surfaces. Do not use on wood. Do not use on concrete. Do not use on asphalt. Do not use on fabric. Do not use on leather. Do not use on rubber. Do not use on plastic. Do not use on glass. Do not use on metal. Do not use on any surface that is not specifically listed as compatible with this product.
