 UNDER THE FEDERAL FUNGICIDE AND RODENTICIDE ACT FOR ECONOMIC PESTICIDE REGISTERED UNDER NO. 1574-S1

ICC SUMMER SOFT is based on a highly active mixture of three Twin Chain quaternary ammonium compounds together with an effective softener. Softened and contaminated fabrics such as diapers, hospital and institutional linen and athletic equipment is a major housekeeping problem not only in hospitals but in institutions, hotels, restaurants and schools. Used as directed, ICC SUMMER SOFT imparts an effective residual bacteriostatic treatment together with softening to laundered items such as diapers, hospital and institutional linens and athletic apparel. This finish will effectively protect the fabric against rapid bacterial growth caused by moisture and wet contamination. ICC SUMMER SOFT is designed for commercial and institutional laundry use by addition to the final rinse. Laundered fabric may also be treated and softened by soaking in a solution of ICC SUMMER SOFT. For recommended solution concentration, see USE DIRECTIONS. Fabrics treated with recommended use concentrations of ICC SUMMER SOFT were found to be non-irritating to human skin. ICC SUMMER SOFT Bacteriostatic Laundry Softener Concentrate is economical to use because it is concentrated. It should be handled with care.

USE DIRECTIONS. GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To soften laundered fabrics and obtain residual bacteriostatic activity against *Klebsiella pneumoniae*, ATCC No. 4352 and *Staphylococcus aureus* ATCC No. 6538, use 1.00 fluid oz. (2 tablespoons) per 100 lb. of fabric (dry weight).

Do it: the appropriate amount of ICC SUMMER SOFT in one to two gallons of water; then add to the washwheel in the final rinse.

Retreat fabric after each washing.
