

 <p>U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 M St., S.W. Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE Reregistration</p> <p>(under FIFRA, as amended)</p>	EPA Reg. Number: 9608-2	Date of Issuance: JUL 6 2005
	Term of Issuance: Unconditional Registration	
	Name of Pesticide Product: ROACH PRUFE	
Name and Address of Registrant (include ZIP Code): Lewis & Harrison Copper Brite 122 C. st. N.W. Washington DC 20001		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>		
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>		

Based on your response to the Reregistration eligibility Documents, EPA has reregistered the product listed above. This action is taken under the authority of section 4 (g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Registration under this section does not eliminate the need for control reassessment of pesticides. EPA may require submission of data at anytime to maintain the registration of your product. with regards to labeling, you must make the labeling changes listed below:

Enclosed is a copy of your label stamped Accepted.

Sincerely,

Richard Gebken

Directions for use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To control roaches (water bugs, palmetto bugs), ants and silverfish: Shake well before opening. Apply with teaspoon, liberally scattering under and behind refrigerator, stove, sink, dishwasher, washing machine and dryer, tubs into openings around drains, water pipes and electrical conduits, and in cracks and crevices along baseboards and corners of cabinets, cupboards, and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then scatter liberally in drawer wells. Reapply as necessary. Any powder visible after application must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets. Avoid contamination of food and foodstuffs.

Directions for applying in new construction: When treating large areas, such as wall voids, soffit and subcabinet voids in new and existing construction, dust liberally using dusting application equipment. A bulbous battery filter (available at auto supply stores) works well as the powder can be sucked up and blown into the voids.

Crack and crevice treatments: Crack and crevice treatment is a crack and crevice treatment. Places other than private residences, including food processing areas, are not prepared for roach and ant infestation control. Crack and crevice treatment only includes areas for assembly, storage, packing, shipping, bonding, wrapping, boxing, preparing and bulk waste storage and enclosed processing systems. Siding areas (when not exposed and facility is in operation) also would be considered a food area. Apply in small amounts liberally into cracks and crevices using dusting equipment or other suitable equipment capable of applying insecticide into cracks and crevices. Do not apply between different elements of construction, between equipment and floor, openings leading to voids and hollow spaces, electrical conduits and pipes, conduits, motor housings and electrical wiring boxes where roaches may be found. Do not take care to avoid exposing the powder to exposed surfaces of machinery and material into the air. Avoid contamination of food or food processing surfaces.

Application of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.

Serving Areas: Facilities where prepared foods are served, such as dining rooms, but excluding areas where food may be prepared or held. Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

Non-food areas: Include garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling.) Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

Precautionary Statement:

Hazards to humans and domestic animals:

Caution: Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

First Aid Statement:

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.

Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air.

If on Skin and Clothing: Wash exposed areas with soap and water. Remove contaminated clothing and shoes. Wash clothing before reuse.

Call a poison control center or doctor for treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice.

Get this product or label if you will not be using a Poison Control Center or doctor for treatment. If used in emergency, for additional information call (1-866-267-2837).

Protective Equipment for New Construction: Wear normal work clothing (long-sleeve shirt, long pants, shoes plus socks) and a NIOSH/MSHA approved dust mask respirator.

Storage and Disposal: Do not contaminate water, food or feed by storage and disposal. Storage: Store in a dry place. Do not store where children or animals may gain access. Disposal: If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
