OFFICE OF
CHEMICAL SAFETY
AND POLLUTION PREVENTION

AUG 31 2011

Mr. Terry K. Brite
Copper Brite, Inc.
P.O. Box 50610
Santa Barbara. CA93150-0610

Subject: Label Notification(s) for Pesticide Registration PR Notice 2007-4 & 2007-1

Dear Mr. Brite:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated August 2, 2011 for:

EPA Registration Number: 9608-2 Roach Prufe®

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our Records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

Richard Gebken
Product Manager 13
Insecticide Branch
Registration Division (7504P)

Directions for use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To control roaches (water bugs, palmetto bugs), ants and silverfish: Shake well before opening. Apply with teaspoon, liberally scattering under and behind refrigerator, stove, sink, dishwasher, washing machine and dryer, tubs, into openings around drains, water pipes and electrical conduits, and in cracks and crevices along baseboards and corners of cabinets, cupboards, and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then scatter liberally in drawer wells. Reapply as necessary. Any powder visible after application must be brushed into cracks and crevices or removed. Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

Directions for applying in new construction: When treating large areas, such as wall voids, soffit and subcabinet voids in new and existing construction, dust liberally using dusting application equipment. A bulbous battery filler (available at auto supply stores) works well as the powder can be sucked up and blown into the voids.

Crack and crevice treatment: Food and feed handling establishment - Places other than private residences in which food or feed is held, processed, prepared or served. **Food area application limited to crack and crevice treatment only.** Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems. Serving areas (when food is exposed and facility is in operation) also would be considered a food area. Apply in small amounts directly into cracks and crevices using a bulbous duster or other suitable equipment capable of applying insecticide directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housing and electrical switch boxes where roaches hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of feed or food processing surfaces.

Application of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.

Made in U.S.A. ♦ United States Pat. No. 4,299,258, 4,438,090, 4,461,758 ♦ Aust. Pat. No. 522971 ♦ Japan Pat. No. 1,412,411

Serving Areas - Facilities where prepared foods are served, such as dining rooms, but excluding areas where food may be prepared or held. Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

Non-food areas - Include garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling.) Apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.

Precautionary Statement:

Hazards to humans and domestic animals.

Caution. Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

First Aid Statement:

If Swallowed: • Call a poison control center or doctor immediately for treatment advice.

- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If Inhaled: • Move person to fresh air.

• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable mouth-to-mouth if possible.

• Call a poison control center or doctor for further treatment advice.

If in Eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call (1-877-565-1566).

Protective Equipment for New Construction: • Wear normal work clothing (e.g., long sleeve shirt, long pants, shoes plus socks) and a NIOSH/MSHA approved dust mask respirator.

Storage and Disposal: Do not contaminate water, food or feed by storage and disposal. **Storage:** Store in a dry place. Do not store where children or animals may gain access. **Disposal:** If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
