U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

Date of Issuance:

9608-3

MAR 03 1998

Term of Issuance: Conditional

Name of Pesticide Product:

Termite Prufe

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Copper Brite, Inc.
1482 East Valley Road, Suite 29
Santa Barbara, CA 93108

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 9608-3".

b. Revise the Precautionary Statement to read:

Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing before reuse.

Signature of Approving Official:

Date:

c. Revise the Statements of Practical Treatment to read:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

3. Add the following disclaimer to your product labeling:

This product may be used to impart a temporary resistance at these places of attack which may aid in the prevention of immediate reinfestation. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement, particularly where use of other insecticides may pose an order problem.

4. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely your,

for Marion J. Johnson, Jr.
Product Manager 10
Insecticide Branch
Registration Division (7505c)

Termite Prufe™ is effective for all interior and exterior lumber, plywood, logs, and wood-form composite components. It can be used for infested wood and as a preventive treatment for wood in existing structures, also for pre-treatment during construction. The solution continues to penetrate deep into wood and does not break down, giving long lasting protection.

Directions for use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Mixing: (1 lb makes 1 gal. - Covers 200 sq. ft.) Fill bucket with about 30% of a gallon of water. While stirring add 1 lb of Termite Prufe powder, then add water to make 1 gal. Stir until dissolved crystal clear, approximately 5 minutes (quicker in warm water).

Note: Stores indefinitely in sealed plastic container. Use duplicate label enclosed to securely affix to stored solution.

Application equipment: Solution can be applied with paint brush, roller or trigger spray bottle. Garden tank sprayer works best for attics, crawl spaces, decks, fences, logs and new construction.

Application: Wood surface should be clean, dry and unsealed before treating. Apply solution until wood surface is thoroughly wet. Apply second application after 1 to 24 hours. Applications can also be made by drilling approximately 1/4" holes and injecting solution into wood and/or wall voids. Avoid drilling into plumbing and/or spraying electrical installations. Any white residue can be easily removed with warm water and a mild soap solution. Wood should be completely dry (at least 48 hours) before applying paint, varnish or a waterproofing seal. Avoid contact with plant life.

Replacing infested wood: Treat surrounding area and all sides of new wood with 2 applications before installing.

Pre-treatment during construction: Apply solution to all accessible surfaces of bare wood, plywood and wood-form composite until surface is thoroughly wet. Apply second application after 1 to 24 hours. Apply after roofing and framing are in place and before insulation and dry walls are installed. Protect treated wood from rain.

Note: Correct leaks and moisture exposure that cause infestation. Wood exposed to moisture should be sealed after treatment. Not recommended for portion of wood that is in direct contact with soil. When glueing wood, treat only after glue is dry.

Precautionary statements:

Hazards to humans and domestic animals.

CAUTION: Harmful if swallowed. Avoid contact with eyes. Wash thoroughly after handling. Do not leave container where children or animals may gain access. Avoid contamination of food and feed. Applications of this product in food areas of food handling establishments other than crack and crevice treatment are not permitted. Statement of practical treatment: *If swallowed*, give 1 or 2 glasses of water and seek medical attention or contact Poison Control Center. *If in eyes*, flush with plenty of water. Get medical attention if irritation persists. *If on skin*, remove contaminated clothing and wash skin with water. *If inhaled*, remove victim to fresh air.

Environmental hazards: Termite Prufe powder or solution carelessly spilled or applied to croc-and or growing plants, including trees and shrubs, may kill or seriously retard plant growth. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Protective equipment: Wear waterproof gloves, eye protection, protective clothing (e.g. long sleeve shirt and shoes) and a MSHA/NIOSH approved dust/mist mask respirator (in confined spaces) when applying solution.

Storage and disposal: Do not contaminate water, food or feed by storage or disposal. Storage: Store in a dry place. Do not store where children or animals may gain access. Pesticide disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container disposal: Do not reuse empty container. Wrap container and put in trash collection.

Notice: Neither manufacturer nor seller makes any warranty expressed or implied concerning use of this product other than indicated on label. Buyer assumes all responsibility for safety and use not in accordance with directions. Because of varying conditions affecting use and application, complete prevention of decay by fungi, other organisms or infestations cannot be guaranteed.
