9608-5

Date of Issuance:
MAY 2 2000

Term of Issuance:
Conditional Registration

Name of Pesticide Product:
Termite Prufe Ready to Use

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Copper Brite, Inc
1482 East Valley Road
Santa Barbara, CA 93108

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following labeling changes:
 - a.. Revise the EPA Registration Number to read: "9608-5."
3. You must submit /cite data for the corrosion characteristics, please reference with an MRID Number or any EPA acceptable studies. Submit this test within ninety (90) days in receipt of this notice.

Signature of Approving Official:

Marion Johnson, PM 3

See page 2

Date:

May 2, 2000

EPA Reg. No . 9608-5

4. Revise the Precautionary Statement to read: "Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling."
5. Submit five(5) copies of the revised final printed labeling for our records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label accepted with comments is enclosed for your record.

Sincerely,

Marion Johnson
Product Manager 03
Insecticide Branch
Registration Division (7505C)

enclosures

Termite Prufe Ready to Use is effective for all interior and exterior wood. It can be used for infested wood, as a preventive treatment in existing structures and for pre-treatment during construction. The solution continues to penetrate deep into wood and does not breakdown, giving long lasting protection. Larger size is available for use with garden tank sprayer for attics, crawl spaces, decks, fences, logs and new construction.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application: Wood surface should be clean, dry and unsealed before treating. Apply solution until wood surface is thoroughly wet. Apply second application after 1 to 24 hours. Use attached extension tube to apply solution directly into termite holes and/or wood and wall voids by drilling 3/32" holes. Avoid drilling into plumbing and/or spraying electrical installations. Wood should be completely dry (at least 48 hours) before applying paint, varnish or a waterproofing seal. Avoid contact with plant life. When replacing unsound wood, treat surrounding area and all sides of new wood with 2 applications before installing. **Flush sprayer and remove any residue on windows with hot water after use.** Note: Correct leaks and moisture exposure that cause infestation. Wood exposed to moisture should be sealed after treatment. Not recommended for portion of wood that is in direct contact with soil. When glueing wood, treat only after glue is dry. We recommend a small patch test before general application. Application of this product in food areas of food-handling establishments, other than crack and crevice treatment, is not permitted.

Precautionary Statements

Hazards to Humans and Domestic Animals
Caution. Harmful if swallowed. Avoid contact
with eyes and clothing. Wash thoroughly with
soap and water after handling.

First Aid

If Swallowed: Call a physician or Poison Control
Center. Drink 1 to 2 glasses of water and induce
vomiting by touching back of throat with finger.
If person is unconscious, do not give anything by
mouth and do not induce vomiting.
If In Eyes: Flush eyes with plenty of water. Call a
physician if irritation persists.
If On Skin: Wash with plenty of soap and water.
Get medical attention if irritation persists.

Environmental Hazards

Do not spill or apply this product on crops or
growing plants, including trees and shrubs.

Storage and Disposal

Store in any area inaccessible to children and
animals. Discard empty package in trash.

Notice: Neither the manufacturer or seller makes any
warranty expressed or implied concerning the use of
this product other than indicated on the label. Buyer
assumes all responsibility for safety and use not in
accordance with this label's instructions. Because of
varying conditions affecting use and application,
complete prevention of decay by fungi, other organisms
or infestation cannot be guaranteed. This product may
be used to impart a temporary resistance at places of
attack which may aid in the prevention of immediate
reinfestation. Such applications are not a substitute for
mechanical alteration, soil treatment or foundation
treatment but merely a supplement, particularly where
use of other insecticides may pose an odor problem.
