NOTIFICATION OF MINOR LABEL CHANGE TO REARRANGE WORDING ON LABEL

Notification to Rearrange Wording on Label in Accordance With PR Notice 98-10

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be the subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

4. Typed Name Ana Rodriguez-Koster, Lewis & Harrison LLC	5. Date January 4, 2001	

Termite Prufe Ready to Use is effective for all interior and exterior wood. It can be used for infested wood, as a preventive treatment in existing structures and for pre-treatment during construction. The solution continues to penetrate deep into wood and does not breakdown, giving long lasting protection. Larger size is available for use with garden tank sprayer for attics, crawl spaces, decks, fences, logs and new construction.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application: Wood surface should be clean, dry and unsealed before treating. Apply solution until wood surface is thoroughly wet. Apply second application after 1 to 24 hours. Use attached extension tube to apply solution directly into termite holes and/or wood and wall voids by drilling 3/32" holes. Avoid drilling into plumbing and/or spraying electrical installations. Wood should be completely dry (at least 48 hours) before applying paint, varnish or a waterproofing seal. Avoid contact with plant life. When replacing unsound wood, treat surrounding area and all sides of new wood with 2 applications before installing. Note: Use hot water to flush pump/tube and remove any residue on windows after use. Correct leaks and moisture exposure that cause infestation. Wood exposed to moisture should be sealed after treatment. Not recommended for portion of wood that is in direct contact with soil. When gluing wood, treat only after glue is dry. We recommend a small patch test before general application. Application of this product in food areas of food-handling establishments, other than crack and crevice treatment is not permitted.

Precautionary Statements

Hazards to Humans and Domestic Animals
Caution. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid

If Swallowed: Call a physician or Poison Control Center. Drink 1 to 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.
If In Eyes: Flush eyes with plenty of water. Call a physician if irritation persists.
If On Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

Environmental Hazards

Do not spill or apply this product on crops or growing plants, including trees and shrubs.

[Protective Equipment

Wear waterproof gloves, eye protection, protective clothing (e.g. long sleeve shirt and shoes) and a MSHA/NIOSH approved dust/mist mask respirator (in confined spaces) when applying solution.]¹

Storage and Disposal

Store in any area inaccessible to children and animals. Discard empty package in trash.
Notice: Neither the manufacturer or seller makes any warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all responsibility for safety and use not in accordance with this label's instructions. Because of varying conditions affecting use and application, complete prevention of decay by fungi, other organisms or infestation cannot be guaranteed. This product may be used to impart a temporary resistance at places of attack which may aid in the prevention of immediate reinfestation. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement, particularly where use of other insecticides may pose an odor problem.
