Copper Brite, Inc.
1482 East Valley Road
Santa Barbara, CA 93108

Dear Ms. Rodriguez-Koster:

Subject: Label Amendment (PR Notice 2001-1 & 2001-6)
EPA Registration No. 9608-5
Product Name: Termite Prufe Ready to Use
Application date: November 20, 2003

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended revising the label in compliance with PR Notice 2001-1 and 2001-6 is acceptable, and stamped copy is enclosed for your records.

Sincerely,

Richard Gebkens
Acting Product Manager 10
Insecticide Rodenticide Branch
Registration Division 7505

enclosure

Termite Prufe Ready to Use is effective for all interior and exterior wood. It can be used for infested wood, as a preventive treatment in existing structures and for pre-treatment during construction. The solution continues to penetrate deep into wood and does not breakdown, giving long lasting protection. Larger size is available for use with garden tank sprayer for attics, crawl spaces, decks, fences, logs and new construction.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application: Wood surface should be clean, dry and unsealed before treating. Apply solution until wood surface is thoroughly wet. Apply second application after 1 to 24 hours. Use attached extension tube to apply solution directly into termite holes and/or wood and wall voids by drilling 3/32" holes. Avoid drilling into plumbing and/or spraying electrical installations. Wood should be completely dry (at least 48 hours) before applying paint, varnish or a waterproofing seal. Avoid contact with plant life. When replacing unsound wood, treat surrounding area and all sides of new wood with 2 applications before installing. **Note:** Use hot water to flush pump/tube and remove any residue on windows after use. Wood exposed to moisture should be sealed after treatment. Not recommended for portion of wood that is in direct contact with soil. When gluing wood, treat only after glue is dry. We recommend a small patch test before general application. Application of this product in food areas of food-handling establishments, other than crack and crevice treatment is not permitted.

Notice: Neither the manufacturer or seller makes any warranty expressed or implied concerning the use of this product other than indicated on the label. Buyer assumes all responsibility for safety and use not in accordance with directions. Because of varying conditions affecting use and application, complete prevention of decay by fungi, other organisms or infestation cannot be guaranteed. This product may be used to impart a temporary resistance at places of attack which may aid in the prevention of immediate reinfestation. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but merely a supplement, particularly where use of other insecticides may pose an odor problem.

Net Contents: 22 fl. oz (1 pt. 6 oz.)

[FRONT PANEL]

Precautionary Statements

Hazards to Humans and Domestic Animals
Caution. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Environmental Hazards

Do not spill or apply this product on crops or growing plants, including trees and shrubs.

[Protective Equipment

Wear waterproof gloves, eye protection, protective clothing (e.g. long sleeve shirt and shoes) and a MSHA/NIOSH approved dust/mist mask respirator (in confined spaces) when applying solution.]

Storage and Disposal

Storage: Store in any area inaccessible to children or animals. **Disposal: If empty:** Do not reuse container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
