METHYL PARATHION TECHNICAL For Manufacturing Purposes Only

Ethyl Parathion

Active Ingredient: Ø, O - Diethyl - O-p-nitrophenyl-phosphorothioate 97/98% Inert Ingredient: (XYLENE)

POISON

DANGER: EXTREMELY HAZARDOUS IF SWALLOWED, INHALED OR ABSORBED THROUGH SKIN.

Rapidly absorbed through skin. Do not get in eyes, or on skin or clothing. Wear protective gloves, clothing and goggles. If spilled on skin, immediately wash thoroughly with soap and warm water. Wear a mask or respirator of a type passed by the U.S. Dept. of Agriculture of Methyl Parathion protection. Do not contaminate feed or foodstuffs. Wash hands, arms and face thoroughly with soap and warm water before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Keep container closed.

WARNING - Keep all persons out of the operating area or vicinity where there may be danger of fumes. Vacated areas should not be re-entered until the volatile residues have dissipated. Observe all cautions in handling and formulating.

NET WEIGHT 550 POUNDS

DIRECTIONS: FOR FURTHER MANUFACTURE ONLY U.S.D.A. REG. NO. 110 EAST 42nd STREET NEW YORK, N.Y. 10017

TRANS CHEMIC INDUSTRIES, INC.

ANTIDOTE: INTERNAL - If swallowed, give a tablespoon of salt in a glass of warm water and repeat until vomit fluid is clear. Have victim lie down and keep quiet. - CALL A PHYSICIAN IMMED-IATELY. (Note for physician's use only: therapeutic doses of atropine appear effective as an antidote.)

EXTERNAL - If skin is contacted, remove all contaminated clothing and wash thoroughly with soap and water.

NOTICE - The seller guarantees the ingredients as stated. Since the use of this product is beyond the control of the seller, the seller makes no warranty of any kind, express or implied, concerning the use of this material. The user assumes all risks of use or handling whether in accordance with directions or not. Formulated products should be used for that purpose for which Methyl Parathion has been found suitable, namely: cotton dusts for control of aphids, red spider mites, and cotton leaf worm.
