

**GC 20** is a germicide with an organic soil tolerance. Its disinfecting action has been verified in the AOAC Use-Dilution Test against *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Pseudomonas aeruginosa* in the presence of significant amounts of serum as a source of organic matter. This means that one-step disinfection and cleaning can be achieved when used as directed.

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. **GC 20** is formulated for this problem area. It cleans, disinfects, and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

**GC 20** is virucidal against Herpes Simplex (a member of the Herpes viruses that cause chicken pox, severe brain infections, and infectious mononucleosis), Vaccinia (representative of the pox viruses) and Influenza A2 (the Hong Kong flu virus) on inanimate environmental surfaces.

**DANGER:**

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**FIRST AID:**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent, convulsions may be controlled by the cautious intravenous injection of a short-acting barbiturate drug.

**GC 20**

Heavy-Duty Germicide  
with Organic Soil Tolerance

Cleaner-Disinfectant-Deodorizer-Virucide\*  
for Hospital and Institutional Use

**AOAC Phenol Coefficients**

Staph. aureus (ATCC No.6538)	70
Salmonella typhosa (ATCC No. 6539)	50

**Active Ingredients**

Octyl Decyl Dimethyl Ammonium Chloride	4.50%
Dioctyl Dimethyl Ammonium Chloride	2.25%
Didecyl Dimethyl Ammonium Chloride	2.25%
Tetrasodium Ethylenediamine Tetraacetate	2.40%
Isopropyl Alcohol	3.60%

**Inert Ingredients** 85.00%

100.00%

**EPA Registration No.** 9619-4

**EPA Establishment No.** 9619-MA-1

**Net Contents:**

SYNTHETIC LABORATORIES, INC.  
Victory Lane, Dracut, Mass. 01826

**DANGER**

KEEP OUT OF REACH OF CHILDREN. SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.
