

1/1 9619-6 1973

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. **GC Super 30** is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

GC Super 30 is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 800 ppm hardness. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of **GC Super 30** per gallon of water will deodorize bathrooms, garbage storage areas, and other areas where bacterial growth can cause mal odors.

WARNING

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

GC SUPER 30

Cleaner—Disinfectant—Deodorizer—Fungicide
Sanitizer for Hospital and Institutional Use

AOAC Phenol Coefficients
Staph. aureus (ATCC No. 6538) 100.00%
Salmonella typhosa (ATCC No. 6539) 96.19-6

Active Ingredients

Didecyl dimethyl ammonium chloride	4.5%
Tetrasodium ethylenediamine tetraacetate	2.0%
Sodium carbonate	1.0%
Sodium metasilicate	0.5%

Inert Ingredients 92.0%

EPA Registration No. 9619-6
EPA Establishment No. 9619-MA-1

USE DIRECTIONS

Apply **GC Super 30** to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

For Hospitals & Nursing Homes: Add two ounces per gallon of water. At two ounces per gallon use-level, **GC Super 30** is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use-Duration Test. Fungicidal performance was determined against *T. interdigitale* by the AOAC Fungicidal Test.

At two ounces per gallon the broad spectrum effectiveness of **GC Super 30** is shown by its germicidal action against the following additional organisms:
Brevibacterium ammonigenes
Enterobacter aerogenes
Proteus mirabilis
Streptococcus pyogenes
Klebsiella pneumoniae
Salmonella schottmuelieri
Streptococcus faecalis
Shigella dysenteriae

*At two ounces per gallon use-level, **GC Super 30** is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), vaccinia (representative of the pox viruses), adenovirus Type 5 (a causative virus in respiratory diseases), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus on unpolished environmental surfaces.

For Schools, Institutional and Industrial Uses: Add one ounce per gallon of water.

At one ounce per gallon use-level, **GC Super 30** delivers excellent cleaning and is germicidal. It is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and *Trichophyton interdigitale*, the most common fungus. The same AOAC tests used above to confirm suitable performance for hospitals were used.

For sanitizing add one-half ounce per gallon of water. Use **GC Super 30** for sanitizing and cleaning of utensils, equipment, and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, rinse thoroughly with potable water.

Rinse empty container with water before discarding.
