

GC #1 is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, institutions, and industry. A single application removes dirt and grime, disinfects and is virucidal. When used as directed, the hard surface disinfecting action of **GC #1** will reduce the hazard of cross infection.

GC #1 is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 1000 ppm hardness with no potable water rinse required. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed, **GC #1** will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mild odors. Prevents odors caused by acid and mold.

Precautionary Statements

Hazards to Humans and domestic animals

WARNING

Keep out of reach of children. Causes eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER TO WHICH IT IS ADDED BY SPILLING OR TIPS. USA

REFILLING AND REUSE PROHIBITED.

USE ONLY IN CONTAINER

PESTICIDE DISPOSAL

PESTICIDE CONTAINER THAT IS EMPTY OR NEARLY EMPTY SHOULD BE REUSE OR RECYCLED. IF NOT REUSE OR RECYCLED, IT SHOULD BE DESTROYED BY A SPECIALIZED FIRM. DO NOT REUSE OR RECYCLE. DO NOT REUSE OR RECYCLE. DO NOT REUSE OR RECYCLE.

CONTAINER DISPOSAL

DO NOT REUSE FOR FOOD, DRINK, OR OTHER USE. DO NOT REUSE FOR LANDFILL. ALL USES FOR REUSE OR RECYCLING SHOULD BE APPROVED BY A STATE OR FEDERAL AGENCY.

Directions for Use
GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
GC #1 is a general purpose cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of organic soil.

Apply GC #1 to glass, metal, painted (plastic) surfaces such as tables, chairs, countertops, sinks and bath tubs with a spray nozzle or mechanical spray device. When applied with a mechanical spray device, surface should be sprayed until thoroughly wetted.

For best performance, a preliminary cleaning may be required. Treated surfaces must remain wet for 10 minutes.

2.5 oz. per gallon use level: The broad spectrum of GC #1 has been evaluated in the presence of organic soil and has been found to meet the following requirements by the AOAC Use-Dilution test:
Highly effective against:
Listed bacteria
Listed fungi

AOAC Fungal Test: Tested against yeasts (the ability of all yeasts)

At 3/4 oz. per gallon use level Sanitizer Test for Non Food Contact Surfaces: Effective in water up to 1000 ppm of organic soil.
Highly effective against:
Listed bacteria

For sanitizing food contact surfaces, see the label. WATER RESISTANCE REQUIRED.

***At 2 oz. per gallon use level GC #1 will be effective in the presence of 2% organic soil and listed bacteria for 10 minutes in the following tests:** Hepler's (simple) (a number of the virus family that causes influenza), bacteriophage (a virus that reproduces in the presence of the bacterium), and bacteriophage (a virus that reproduces in the presence of the bacterium).

NOTE: The product is not effective against all strains of all listed bacteria.
