

M-GARD W550

WOOD AND TEXTILE PRESERVATIVE

ACCEPTED

JAN - 9 1998

PRODUCT CODE:

LOT NUMBER:

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 9630-10

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING FOR EXTERIOR USE ONLY

INGREDIENTS:

ACTIVE INGREDIENT:	
Zinc Naphthenate.....	63.0%
(Zinc, as metal, 8%)	
INERT INGREDIENTS.....	37.0%
TOTAL.....	100.0%

CONTAINS PETROLEUM DISTILLATES

PRODUCT WT/GAL.= 8.4 LBS.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush immediately with water. CALL PHYSICIAN IMMEDIATELY.

IF ON SKIN: Wash with plenty of soap and water.

IF INHALED: Remove to fresh air.

IF SWALLOWED: Do not induce vomiting. GET MEDICAL ATTENTION.

M-GARD W550 is an emulsifier concentrate of zinc naphthenate suitable for dilution with water and subsequent application to wood by brush, dip, spray, or pressure impregnation. Do not apply M-Gard W550 in a manner which will result in contamination of aquatic environments. Wood to be treated is intended for NON-FOOD CONTACT, NON-AQUATIC APPLICATIONS. Applications include landscape logs and structural timber, planking, siding, fences, greenhouse wood and stakes, millwork, plywood, shingles, structural logs and non-apparel canvas. M-GARD W550 will significantly reduce the deterioration of wood or canvas by fungal rot or mildew growth. Wood products are not noticeably discolored by M-GARD W550.

PRESSURE TREATMENT: Maximum preservation is obtained by full cell pressure treatment, as conducted to obtain an average zinc retention of 0.09 pcf. Pressure treatment applications of M-GARD W550 should meet applicable industry standards or specifications. Dilute the M-GARD W550 with about 15 to 30 volumes of water, depending on the total net retention. Recirculation of the treating solution should be maintained for best results.

DIP AND BRUSH APPLICATIONS: Reduce W550 with about 3 volumes of water. Maintain good agitation in the dip emulsion. Completely immerse for a minimum of 1 minute. The dip emulsion containing 3 volumes of water may also be used for minimal protection by brush treatments. Two coats should be used for best results. Total consumption should be about one gallon per 100-300 square feet per coat. When painting over M-GARD W550 with oil-borne or water-borne coatings, the wood should be thoroughly dried or sealed with shelac.

SPRAY APPLICATIONS: Reduce W550 with about 3 volumes of water. The dip emulsion containing 3 volumes of water may also be used for minimal protection by spray treatments. Two coats should be used for best results. Total consumption should be about one gallon per 100-300 square feet per coat. When painting over M-GARD W550 with oil-borne or water-borne coatings, the wood should be thoroughly dried or sealed with shelac.

NON-APPAREL FABRIC AND CORDAGE PROTECTION: Dilute with 3 volumes of water. Can be used to protect and preserve non-apparel fabric against mildew, mold and fabric destroying and staining fungus, including rope, twine, canvas, burlap and other non-apparel fabric. Material should be treated to applicable standards or specifications. Do not use on fabric intended for food or feed contact surfaces or clothing. Not for use on fabric or cordage in ground contact situations.

Harmful if swallowed. Do not get on skin, or on clothing. Prolonged or repeated skin contact may cause allergic reaction in some individuals. Wear long sleeved shirt, long pants, and hand protection such as rubber, or chemical resistant gloves.

Do not get in eyes. Wear protection such as goggles, face shield or safety glasses.

Do not breathe vapors or mist during brush, roll, spray and dip applications. Wear a NIOSH/MHSA-approved mist/vapor respirator when spraying for continued or prolonged use of this product or for frequent use of this product.

In case of medical questions, emergencies, or accidents involving this product, call 1-800-390-4444.

Application of this product may produce a strong, lingering, unpleasant odor.

Do not exceed specified application rate. Use only the application method specified for a particular use.

ENVIRONMENTAL HAZARDS

EFFLUENT DISCHARGE STATEMENT

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Apply this product only as specified on the label. Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container after use.

STORAGE AND DISPOSAL

STORAGE: Store at temperatures between 0 F and 100F. If product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbant, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in original container only. Keep container closed when not in use.

CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by procedures approved by state and local authorities.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of according to procedures approved by federal, state or local authorities.

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal.
