WOOD PRESERVATIVE

WATER REPELLENT

DIRECTIONS FOR USE

Protects the following types of wood: shingles, millwork, windows, outdoor furniture, decks, piers, posts, pilings, block flooring, staking material, decks, spars, house siding. Protects wood in all the above applications including nursery lumber, slats and beehive crates.

PHYSICAL PROTECTION

Inhibits warping, shrinking, swelling, checking, cracking, water marking of the wood. Can be painted after drying for 24 hours. For wood containing resins and other materials weathering will enhance paint adhesion. This colorless product offers a penetrating fungicide which will not bloom.

COVERAGE

One gallon covers 100-300 square feet - depending on porosity of wood and method of application.

FABRIC AND CORDAGE PROTECTION

Can be used to protect and preserve fabric against mildew, mold, and fabric destroying and staining fungus, including rope, fish net, twine, canvas, burlap, and other fabrics. Materials should be thoroughly saturated until wet and air dried before use. Materials can either be sprayed or dipped for complete saturation. Treats approximately 75 square feet of fabric per gallon. Do not use on fabric intended for food or feed contact surfaces or clothing. Not for use on fabric or cordage in ground contact situations.

APPLICATION SITE

Can be used to preserve both interior and exterior wood. Interior use is only needed when wood is subject to frequent or prolonged wetting (e.g. condensation or rain seepage.) Can be used for above ground, ground contact and below ground uses. Below ground or ground contact use requires a minimum 5 minute dip. For even further protection, dip for one hour. Wood to be treated should be dry and well seasoned. Fence posts must have bark removed. For fence posts, finished timbers to be buried in soil, immersion for 12-48 hours provides long term protection (pine species may be adequately penetrated in 6-8 hours). Cut timber should be immersed 15-30 minutes per inch of thickness, except in case of pine species which absorb the preservative at a faster rate. For above ground use, apply

KEEP OUT OF REACH OF CHILDREN CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting.

CALL PHYSICIAN IMMEDIATELY.

IF ABSORBED THROUGH SKIN: Wash thoroughly with soap and water.

IF IN EYES: Flush with plenty of water.

GET IMMEDIATE MEDICAL ATTENTION.

PRECAUTIONARY STATEMENTS CAUTION

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed or absorbed through skin. Avoid contact with eyes, on skin or on clothing. Wash thoroughly after handling. Contaminated clothing should be removed and washed before reusing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Use only with adequate ventilation. Close container after each use. Do not use, pour, spill, or store near heat or open flame.

ACTIVE INGREDIENT:

Zinc Naphthenate (Zinc, as metal, 2%) 15.7%

INERT INGREDIENTS 84.3%

TOTAL 100.0%

PRODUCT WEIGHT PER GALLON = 6.9 LBS.

KEEP OUT OF REACH OF CHILDREN CAUTION

COMBUSTIBLE

See other precautionary statements on side panel.

DIRECTIONS FOR USE

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE. Store at temperatures between 40 F and 100 F. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Do not store with fertilizers, food and feed. Keep container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
