WOOD PRESERVATIVE

PRECAUTIONARY STATEMENTS

WARNING

Causes skin irritation. Do not get on skin or clothing. Wash if swallowed or absorbed through skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container after each use.

DIRECTIONS FOR USE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Store at temperatures between 0 F and 100 F. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and store product in original container only. Do not store with fertilizers, food or feed. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide, spray mixtures or rinsate that cannot be used or chemically reprocessed, should be disposed of according to procedures approved by federal, state or local disposal authorities.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

ACTIVE INGREDIENT:

Copper Naphthenate	10.0%
(Copper, as metal, 12)	
INERT INGREDIENTS	90.0%
TOTAL	100.0%
CONTAINS PETROLEUM DISTILLATES	
PRODUCT WT/GAL = 7.2 LBS.	

See other precautionary statements on side panel.

HARMFUL IF SWALLOWED
KEEP OUT OF REACH OF CHILDREN
WARNING

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Hold eyes open and flush with steady gentle stream of water for 15 minutes.

IF SWALLOWED: Drink promptly a large quantity of milk, egg white, gelatin mixture, or, if these are not available, large quantities of water. Avoid alcohol. Do not induce vomiting as it may cause aspiration pneumonia.

IF ON SKIN: Wash with plenty of soap and water. GET MEDICAL ATTENTION

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

W-GARD F500 is a copper naphthenate based preservative for use at its existing concentration or dilution with various solvents for brush, dip, spray or pressure treatment of wood. Wood to be treated is intended for interior or exterior use - logs, lumber, fenceposts, landscape timbers, utility poles, pilings, piers, decks, siding, roof shingles, and staking materials.

Dip and pressure treatment are recommended for ground contact. W-GARD F500 will protect wood against attack by fungal rot and decay, mold and mildew, moss, termites, (including Formosan termites) and other wood destroying insects in wood products.

PREPARATION

Wood should be clean and free of dirt and oils, dry, well seasoned and free of bark.

APPLICATION

DIP, SPRAY OR BRUSH: Use at this existing concentration. For above ground, immerse wood 1-3 minutes per inch of thickness or apply one or two liberal brush or spray coats. For below ground use, immerse at least 15 minutes per inch of thickness.

PRESSURE TREATMENT: by full or empty cell processes use at existing concentration or dilute in petroleum solvent down to 1 part W-GARD F500 to 1 part oil (.5% Copper as metal). Obtain an average copper retention of 0.04-0.10 pcf in the wood by pressure treatment.

NOTES TO USER

Do not use on wood intended for food, feed or potable water contact surfaces. Wood should be dry, clean, well seasoned and free of bark. Do not apply on painted or varnished surfaces.

COVERAGE

One gallon covers 100-200 sq. ft. depending upon porosity of wood.
