NAME OF PESTICIDE PRODUCT
Post Preserver TM Clear Liquid
Wood Preserver

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Mooney Chemical, Inc.
2301 Scranton Road
Cleveland, OH 44113

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is hereby registered in accordance with the provisions of Section 3(c)(7)(A) of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (FIFRA), provided you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Add the phrase, "EPA Registration No. 9630-33."
 - b. On the right panel, under fungicide activity, delete mold, mildew and mildew stain. These claims are not appropriate for this type of use.

SIGNATURE OF APPROVING OFFICIAL

DATE

- c. Include a statement indicating that the Postgard system should not be used in areas where posts will be placed in standing water.
- d. The label which was submitted does not contain complete directions for use. Add "repeat application in 90 days and at 2 year intervals thereafter." as indicated in the pamphlet for Postgard. The label for the device should indicate that it should only be used with this product unless it is known that the plastic in the device will not be dissolved by solvents or other ingredients in other types of wood preservative products.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

If you are installing any wood post (fence, deck, mailbox, etc.), you need this protection system!

The **Postgard System™** consists of two products: tested at Colorado State University's Wood Science Laboratory.

PostGard™ — a patented refillable applicator cup attached to the bottom of a post

PostPreserver™ — an environmentally safe colorless liquid wood preservative used to fill the PostGard™

The **Postgard System™** represents a safe way to preserve the underground portion of wood posts without effecting the natural color or paintability of the wood

PostPreserver™

— a clear environmentally safe wood preservative.

Above-ground Filter Cap

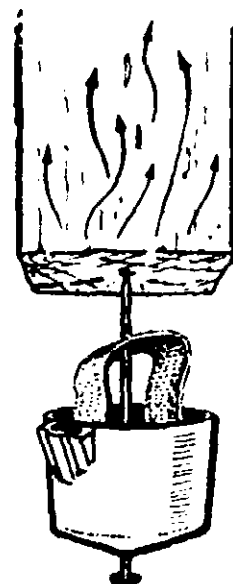

— caps to fit the underground applicator cup through the hole taking extra safety.

Twin-Tubing
— connects filter cap to the applicator cup

Filtering Plug
— secures twin-tubing to the side of the post.

Postgard™ Applicator Cup with wick
— cotton fiber wick which holds PostPreserver™ wood preservative. Cotton fiber wick keeps the bottom of the post wetted allowing the wood preservative to penetrate up the post.

- Protects any 4" round, square, or split-rail wood post.

Easy Installation

- No Special Tools required
- Install post as usual in concrete or fill dirt

PostGard™

Prevents wood fencepost rot and termite attack.

Underground Wood Post Preservation

The **Postgard System™** has been tested and proved effective when installed and used as recommended.

Postgard Company guarantees the quality and performance of its products.

A **Double-Lifetime Limited Warranty** is offered for all 4-inch wood posts utilizing the **Postgard System™** for continuous in-ground wood preservation.

When you purchase and/or install your **Postgard System™** you will receive a **Double-Lifetime Limited Warranty Certificate**, with an attached **Warranty Registration card**, providing full details on how Postgard Company guarantees to at least double the useful life of a wood post when compared with a like wood post (treated or untreated) similarly installed, but not using the **Postgard System™**.

Warranty registration is required, and is transferrable. See the **Double-Lifetime Limited Warranty Certificate** for details.

Homeowners!
Don't let fungus rot and termites destroy your investment . . .

Fight back with

Postgard™

Locally, Postgard helps homeowners to prevent the most common and frustrating problem of outdoor wood post rot-out and prevents structural failure.

Install your **Postgard System™** today!

Keep your outdoor wood structures
STANDING TALL!
