9634-2 $\mathsf{D} \mathsf{M}$ US ENVIRONMENTAL PROTECTION AGENCY 9634-2 OFFICE OF PESTICIDES PROGRAMS TERM OF ISSUANCE REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460 NAME OF PESTICIDE PRODUCT REGISTRATION NOTICE OF PESTICIDE: REREGISTRATION Chlorosol Chlorinating (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended) Solution NAME AND ADDRESS OF REGISTRANT (Include ZIP code) Bel-Aqua Pool Supply, Incorporated 750 Main Street New Rochelle, NY 10805 NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this Stoduct always refer to the above U.S. EPA registration number, On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith. Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product. Make the following labeling changes before you release the product for shipment: In the Storage and Disposal section on the label, delete the reference to "burying in an approved landfill". A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

ATTACHMENT IS APPLICABLE SIGNATURE OF APPROVING OFFICIAL

DATE

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

SWIMMING POOL-WATER DISINFECTION

For a new pool or Spring start up-super chlorinate with 1/2 gallon of this product for each ten thousand gollons of pool water to yield 5 to 10 ppm available chlorine by weight. Check level of available chlorine with a test kit. Adjust and maintain water PH to between 7.2 and 7.6. Adjust and maintain the alkakinity of the pool between 50 and 100 ppm.

To maintain the pool add manually or by feeding device 11oz of this product for each ten thousand gallons of pool water to yield an available chlorine residual between 0.6 and 1.0 ppm by weight. Stabikzed pools should maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the PH, available chlorine residual and alkalinity of the water frequently with the appropriate test kits. Frequency of water treatment will depend upon temperatures and number of swimmers.

Every 7 days-or as necessary, superchlorinate the pool with 1/2 gallon of this product for each ten thousand galloris of pool water to yield 5 to 10 ppm available chlorine by weight. Check level of available chlorine with a test kit. Do not re-enter the pool until the chlorine residual is between 1.0 and 3.0 ppm.

USER PLEASE NOTE:

This product degrades with age. Use a chlorine test kit and increase dosage as necessary, to obtain the required level of available chlorine.

STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight, in case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and then return to the manufacturer or discard by placing in trash collection or burying in approved landfill. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
