 SDS-85 is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, non-medical institutions and industry. A single application removes dirt and grime, disinfects, is virucidal, fungicidal, and will prevent the growth of mold and mildew and their odors. When used as directed, the hard surface disinfecting action of SDS-85 will reduce the hazard of cross-contamination. SDS-85 is also an extremely effective one-step sanitizer for non-food contact surfaces.

When used as directed, SDS-85 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.
