Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

(12 pt)

(18 pt)

Securely wrap original container in several layers of newspaper and discard in trash.

Do not reuse container. Rinse thoroughly before discarding in trash.

How to Apply

Wood to be treated should be dry and well-seasoned before treatment with Zinc-Treat. Fence posts and heavy timbers should be free from bark, dry and well-seasoned. Finished lumber and cut timbers should be dip treated for at least 3 minutes per inch of thickness. If dipping is not possible, treat with several flowing coats by brush or spray. Fence posts, heavy timbers or finished lumber to be buried in the soil should be immersed in full strength Zinc-Treat 12 to 48 hours for effective control of termites. Ends or edges gut or bored after initial treatment should be brushed or sprayed with Zinc-Treat. Both brushes and sprayers can be cleaned by use of paint thinner.

Coverage
