

INSECTICIDE
FUNGICIDE AND PESTICIDE ACT
FOR ECONOMIC POISON REGISTER

WARNING!

CONVULSIVE POISON
CONTAINS STRYCHNINE

Keep away from children and domestic animals and away from where this might be mistaken for regular grain.

Do not contaminate food and feed stuffs.

ANTIDOTE — If 15 to 30 minutes has passed since the poison was taken give a tablespoon full of salt in a glass of warm water. Have victim lie down in a quiet darkened room and keep them warm. Call a physician immediately.

POISONOUS
if swallowed!

Wash hands after using. Do not reuse container. Destroy container by burying with waste or burning. Stay away from smoke or fumes.

Birds feeding on treated areas may be killed. Consult your fish and game agency before applying this product.

Directions

FOR GROUND SQUIRRELS

Scatter about 1/2 teaspoon full of Sperry Gopher Grain on a bare spot close to burrow opening. Close opening following day.

FOR POCKET GOPHERS

Burrowing pocket gophers throw a low fan shaped mound on either side of their underground tunnel. The lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long handled spoon carefully remove plug. Insert 3-4 kernels as far down as possible. Re-close opening. Three kernels will kill a gopher as grain is coated, not soaked, with poison and carries the full amount of poison.

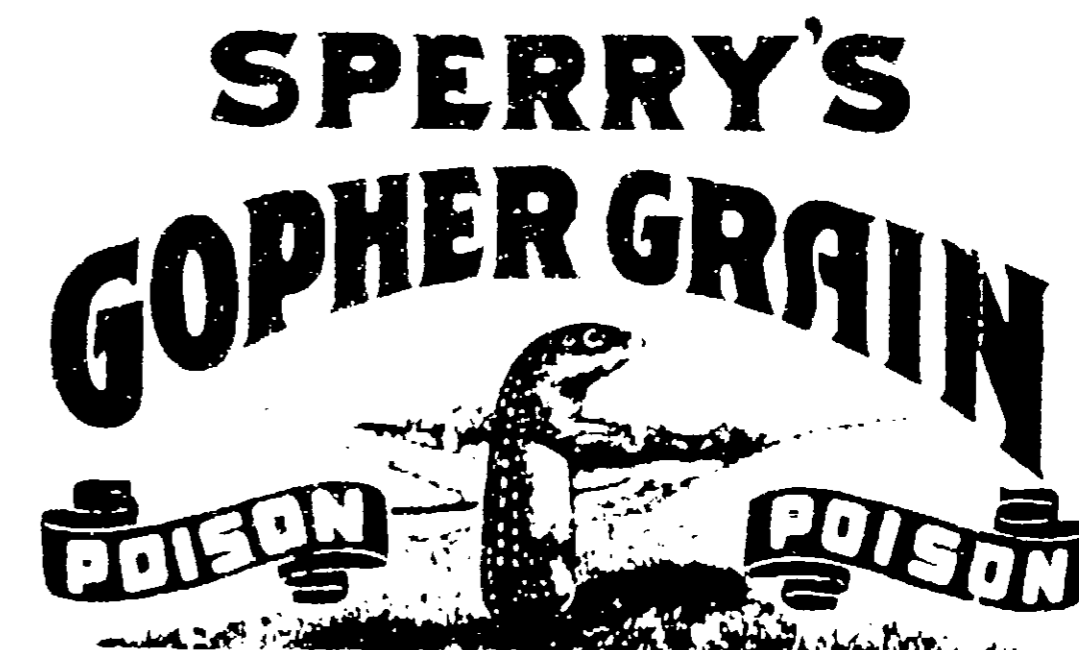

Active Ingredients: Strychnine Sulphate 0.30%
Inert Ingredients 99.70%

DANGER

POISON

Keep out of reach of children, pets, cats and other animals. Do not feed grain.
USDA Reg. No. 96033

EFFECTIVE FOR
Gophers and
Ground Squirrels
