

DIRECTIONS

Spray on Wasps, Hornets or similar pests. Spray them directly or their nests which may be in trees, under eaves, chimneys, cracks, crevices, holes in ground or under rocks. Long range spray enables killing and spot treatment from a distance.

A residue coating of insecticide will continue to kill for weeks after application. Repeat treatment as needed.

Do not spray indoors or on foliage. Do not spray near pets or fish ponds.

Do not use near or around food, dairy barns or poultry houses.

CAUTION: Contents combustible. Do not use near open flame. Contents under pressure. Do not puncture, incinerate or store above 120° F.

Harmful if swallowed. Contact with skin can cause Toxic Symptoms. In case of contact with skin, wash with soap and water.

KEEP OUT OF REACH OF CHILDREN.

(A) Consists of .8% (Butylcarbityl) (6-propylpiperonyl) ether and .2% related compounds.

(B) Consists of 1.2% Octachloro-4, 7-methanotetrahydroidane and .8% related compounds.
