

INSECTICIDE
FOR
CRAWLING INSECTS

Insects to be treated
by application of
this insecticide
to the surface of
the floor, walls,
and ceiling of
the room to be
treated. The
insecticide should
be applied in a
thin, uniform
layer. The room
should be closed
for 24 hours
after treatment.

CAUTION

Do not breathe
the dust or
fumes of this
insecticide.
Do not touch
the treated
surfaces.
Do not eat or
drink from
containers that
have been in
contact with
the treated
surfaces.

Chem. Control's Note
