Inert Ingredients 99.17%
 EPA Reg. No. 9688-42 EPA Est. No. 9688-MO-1

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
This product is highly toxic to bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Cooperative Agricultural Extension Service.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed. Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If on Skin in case of contact, remove contaminated clothing and immediately wash skin with plenty of water. If in Eyes: Flush eyes with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE express or implied extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

USE DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Store in a cool, dry area away from heat or open flame. Empty container. Wrap container and put in trash collection.

PESTS INDOORS

General Information: Use Chemsico Ant and Roach A to control the pests indicated in the areas listed below. Treatment as needed.

Do not apply in conduits, motor housing, junction and other electrical equipment because of possible shock. Do not allow spray to contact food, feedstuffs, and water. Thoroughly wash dishes and food handling utensils with water if they become contaminated by application. Do not allow children or pets to contact treated surfaces until they have dried. Remove pets and cover fish bowls (tanks) before application.

Application within food handling establishments (including private residences in which food is held, processed or served) including but not limited to: Restaurants, Bakeries, Bottling Plants, Canneries and Grain Mills: treatment in and around both food and non-food areas. **Scorpions** (including strains resistant to certain insecticides), **ants, crickets, firebrats, silverfish, spiders, and other insects** such as **confused flour beetles, saw-toothed grubs, Indian meal moths, rice weevils, Mediterranean flour mill moth and red flour beetles.** Apply as a coarse, low pressure spray to localized areas. Do not introduce the spray into the spray to contact food or food-contacting surfaces. Treated areas may include dark corners or rooms and closets behind baseboards, beneath and behind stoves, refrigerators and similar food preparation areas and equipment, the area around plumbing and other utility installations. For ant trails and wherever these pests may find entrance. Spray may encompass crack and crevice treatment by a fine stream of spray directly into openings leading to void spaces in walls, equipment legs and bases or which exist between equipment and floors. Equipment capable of direct stream of insecticide should be used. Repeat treatment but not more often than once every 7 days in restaurant and food handling establishments. In case of emergency Chemsico Ant and Roach A may be applied after 2 days of treatment, but emergency use should be limited to only

64 FL. OZ.

STORAGE AND DISPOSAL

Store in a cool, dry area away from heat or open flame. Do not reuse empty container. Wrap container and put in trash collection.

PESTS INDOORS

General information: Use Chemsico Ant and Roach A insecticide to control the pests indicated in the areas listed below. Repeat the treatment as needed.

Do not apply in conduits, motor housing, junction and switch boxes or other electrical equipment because of possible shock hazard. Do not allow spray to contact food, feedstuffs, and water supplies. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

Application within food handling establishments (places other than private residences in which food is held, processed, prepared or served) including but not limited to: Restaurants, Grocery Stores, Bakeries, Bottling Plants, Canneries and Grain Mills: Use as a spot treatment in and around both food and non-food areas to control **cockroaches** (including strains resistant to certain other insecticides), **ants**, **crickets**, **firebrats**, **silverfish**, **spiders**, and stored product insects such as **confused flour beetles**, **saw-toothed grain beetles**, **Indian meal moths**, **rice weevils**, **Mediterranean flour moths**, and **red flour beetles**. Apply as a coarse, low pressure (20 psi or less) spray to localized areas. Do not introduce the spray into the air or allow the spray to contact food or food contacting surfaces. Areas treated may include dark corners or rooms and closets, along and behind baseboards, beneath and behind stoves, refrigeration units and similar food preparation areas and equipment, floor drains, and around plumbing and other utility installations. For ants apply to ant trails and wherever these pests may find entrance. Spot treatment may encompass crack and crevice treatment by applying small amounts of spray directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or which occur at points between equipment and floors. Equipment capable of delivering a pin stream of insecticide should be used. Repeat treatment as needed but not more often than once every 7 days in restaurants and similar food handling establishments. In case of emergency (callback) Chemsico Ant and Roach A may be applied after 2 days from the last treatment, but emergency use should be limited to once per month.

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND OR CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

Application within residential buildings including homes and apartment buildings and within non-food areas of industrial, institutional, and commercial buildings including hospitals, stores, manufacturing plants and warehouses, for Spot Treatment only: Spray localized areas where **cockroaches** (including strains resistant to other insecticides), **ants**, **clover mites**, **crickets**, **firebrats**, **silverfish**, and **spiders** are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants apply to ant trails, also around doors and windows and wherever else these pests may find entrance. **Note:** a period of 4 to 7 days is normally required for maximum effect on cockroaches.

For control of carpet beetles, thoroughly spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

For control of fleas and brown dog ticks, thoroughly spray for spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

PESTS OUT OF DOORS

Flies, mosquitoes: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also spray surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate. Repeat as necessary.

Ants, brown dog ticks, crickets, fleas and earwigs: for treatment of localized infestation of these insects in outdoor areas where there are weeds or brushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestation occurs.
