

**ACCEPTED**

MAR - 9 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under  
EPA Reg. No. 9688-42

**Chemisco****ANT & ROACH  
KILLER<sub>A</sub>**

**Use Indoors and Outdoors • Kills  
roaches, ants, spiders, fleas and other  
listed pests • Kills on Contact • Kills  
Fast • Keeps on Killing with Residual  
Power for up to 4 Weeks • Keeps  
Killing for up to Four Weeks • Kills  
Hidden Bugs • Kills Adult Fleas and  
Larvae for up to four weeks • No  
unpleasant Odor • Water-Based**

**Active Ingredients:**

Chlorpyrifos [O,O-Diethyl O-(3,5,6-trichloro-  
2-pyridinyl) phosphorothioate] ..... 0.50%  
Inert Ingredients ..... 99.50%

**Keep Out of Reach of Children  
CAUTION**

See Back Panel for Additional Precautionary Statements

Net Contents 1 gallon

**OUTDOORS**

**Flees, mosquitoes:** Only as an aid in reducing insects. Spray outside surfaces of screens, door wherever these insects may enter the room. Also light fixtures on porches, in garages, and other places where they might alight or congregate. Repeat as necessary.  
**Ants, brown dog ticks, crickets, fleas and ear:** localized infestation of these insects in outdoor areas or brushy non-crop areas, spray infested areas, thoroughly wet hills and runways. Reinfestation occurs.

**STORAGE AND DISPOSAL**

Store in cool, dry area away from heat or open flame in trash.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION:** Avoid contact with eyes, skin and clothing. Avoid vapors or spray mist. Keep away from food, feedstuffs and animal supplies. Wash thoroughly after handling.

**Statement of Practical Treatment**

**If Swallowed:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting with finger. Do not induce vomiting or give an emetic to an unconscious person. **If on Skin:** In case of contact, wash immediately with plenty of water. Call a physician if irritation persists. **PHYSICIAN:** Chlorpyrifos is a cholinesterase inhibitor. Atropine injection is an antidote.

**Environmental Hazards**

This pesticide is highly toxic to fish, birds and other animals. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on the label. This product is highly toxic to bees exposed to direct treatment. Protective information may be obtained from your local Agricultural Extension Service.

**NOTICE:** Buyer assumes all responsibility for use of this product in accordance with directions.

**BEST AVAILABLE****READ ENTIRE LABEL BEFORE USE  
DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Thoroughly wash dishes and utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

**SHAKE WELL BEFORE USING****Sprayer Instructions**

How to prime and care for your sprayer:

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

**INDOORS—FOR SPOT TREATMENT ONLY**

For use in residential buildings including homes and apartment buildings and in nonfood areas of industrial, institutional, and commercial buildings including hospitals, stores, manufacturing plants and warehouses.

For cockroaches (including strains resistant to other insecticides) ants, clover mites, crickets, firebrats, silverfish, and spiders, spray areas where insects are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations.

For ants, apply to ant trails; also around doors and windows and wherever else these pests may find entrance. **Note:** a period of 4 to 7 days is normally required for maximum effect on cockroaches. For carpet beetles, thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected. **Note:** Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

For fleas and brown dog ticks, thoroughly spray infested areas such as pet beds and resting quarters, nearby cracks and crevices; along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals (such as Chemisco Flea & Tick Killer).
