EPA Reg No. 9688-49

EPA Est. 9688-MO-1

Net Contents:

Can be used in food areas of food handling establishments.

ACCEPTED
with COMMENTS
in EPA Letter Dated:

DEC 7 1982

In accordance with the FIFRA Act
as amended, this pesticide
registered under EPA Reg. No.

9688-49

9688-49

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Shake well before each use. Remove protective cap. Aim spray away from person. Push button to spray.

Food should be removed or carefully covered before treatment. All food processing surfaces should be covered before treatment or thoroughly cleaned before using. In food processing plants apply only when plants are not in operation.

For Indoor Use: In food areas of food handling establishments, commercial, industrial, office, residential, public, institutional and storage buildings, homes, hotels, ship cabins and hospitals. In hospitals patients should be removed prior to treatment. Also for use in buses, automobiles, and food areas of trucks, boxcars and ship cargo holds. Do not use on electrical equipment or on surfaces that can be harmed or stained by water. Also for use indoors in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

Indoors - to kill crawling insects: Roaches, earwigs, grain mites, sowbugs, silverfish, spiders, scorpions, and centipedes: Spray thoroughly and frequently into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, door frames, bookcases, and storage areas. SPRAY DIRECTLY ON INSECTS where possible. Repeat as necessary.

Outdoors - to control nuisance pests: ants: spray trails, nest and point of entry. Spray on ants where possible. Repeat as necessary.

Spiders: Direct short burst of spray on spider and repeat as necessary.

Scorpions: Direct short burst of spray on scorpion and repeat as necessary.

Wasps: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Repeat as necessary.

To kill Tent Caterpillars: Application should be made when caterpillars are young and tents are first noticed. For best results apply in late afternoon or evening when caterpillars have returned to their tents. Aim spray directly at tents and totally saturate on all sides. Repeat as necessary.

Gypsy Moth Caterpillars: During April and May when Gypsy Moth Caterpillars first appear, spray directly on foliage in trees and bushes where caterpillars are feeding. As they migrate down trunks of the trees and rest at ground level, the Gypsy Moth Caterpillar must be sprayed directly. As the caterpillars pupate into adult moths found on tree trunks, walls and foundations, wood piles and surrounding areas, spray the caterpillars directly. Destroy egg masses wherever they are found before the young caterpillars emerge again in the Spring.

Precautionary Statements

Hazards to Humans and Domestic Animals

Caution

Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes and skin with plenty of water. Do not apply directly to food in commercial food handling facility.. Cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After space spraying, leave packing plant, bakery and other food processing plants, wash all equipment, benches, shelving and so on where exposed food will be handled. When portable water is used in the home or food processing plant, surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

Environmental Hazards

DO NOT APPLY DIRECTLY TO WATER. Do not contaminate water by cleaning of equipment or disposal of wastes. When used on ships, do not wash or flush freshly sprayed surfaces into adjacent waters.

Physical and Chemical Hazards

Contents under pressure. Do not puncture. Do not use near heat or open flame. Exposure to temperatures above 130° may cause bursting.

Storage and Disposal

Do not store near heat or open flame. Do not reuse empty container. Wrap container and put in trash collection. Never throw container into fire or incinerator.

Warranty Statement

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such, or in combination with other materials.

Gentleman:

Subject: Wasp and Hornet Killer III
EPA Registration No. 9688-49
Your Submission of July 7, 1982

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Franklin D. R. Gee
