Reg # 6658-40

YM-10

191

ACCEPTED
31 MAR 1995
 Under the Federal Insecticide, Fungicide, and Rodenticide Act
 EPA Reg. No. 6658-40

**DOUBLE ACTION
 INSECT KILLER
 WITH DOUBLE
 ACTION SPRAY**

Kills:

- House Flies, Mosquitoes, Gnats, Wasps, Ants,**
- Roaches, Earwigs, Grainmites, Sowbugs,**
- Spiders, Centipedes, Biting Flies,**
- Adult Whiteflies, Plant Bugs, Spittlebugs**

For use in Offices, Motels and Non-Food Areas of Institutions, Restaurants and Food Processing Plants

ACTIVE INGREDIENTS:

†*Resmethrin[(5-(phenylmethyl)-3-furanyl)methyl
 2, 2-dimethyl-3-(2-methyl-1-propenyl)
 cyclopropanecarboxylate].....0.550%
 **INERT INGREDIENTS.....99.650%
TOTAL 100.000%

*Cis/trans isomer ratio: max 30%(±) cis and min 70%(±) trans
 † U.S. Patent Nos. 3,465,007 and 3,542,928
 **Contains Petroleum Distillate

EPA REG. NO. 6658-40

EPA EST. NO. 6658-MO-1

SHAKE WELL BEFORE USING
CAUTION
KEEP OUT OF REACH OF CHILDREN
CONTENTS UNDER PRESSURE
 See caution on back panel.
NET WT. 18 OZ. (1 LB.)

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed or absorbed through skin. Avoid contact with skin and eyes. Avoid breathing spray mist. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils.

FIRST AID

In case of contact, immediately flush eyes and skin with plenty of water for at least 15 minutes. For skin and eyes call a physician.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use near heat or open flame. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Remove pets, birds and cover fish aquariums before spraying.

DOUBLE ACTION INSECT KILLER is a dual purpose formulation. A **CONTACT** spray against flying and crawling insects and a **RESIDUAL** insecticide providing up to 3-4 weeks control of roaches.

DOUBLE ACTION INSECT KILLER is a dual purpose spray: a **FINE MIST** for flying and crawling insects (**PUSH BUTTON DOWN**) and a **STREAM** for cracks, crevices, baseboards and other hiding places (**PUSH BUTTON SIDEWAYS**).

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

To kill Houseflies, Mosquitoes, and Gnats: **INDOORS** Close all doors and windows, point nozzle upwards, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

To reduce annoyance from flying insects: **OUTDOORS** Reduce mosquitoes, gnats, (midges), houseflies, deer flies, horse flies and flying moths (millers) by spraying their resting areas. Follow precautions listed above. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic foot of space while moving away from the treated areas. Treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

To kill Roaches, Earwigs, Grain Mites, Sowbugs, Spiders and Centipedes: **CONTACT SPRAY** Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insect where possible. Repeat as necessary.

RESIDUAL SPRAY Spray baseboards, cracks, crevices, around door and window frames, and other hiding places such as closets, in back of and under appliances, sinks and cupboards in the kitchen and bathroom. In basements spray hiding places in cracks and crevices, lower walls, dark places. Spray at the rate 3 to 4 seconds per linear foot at a distance of 12 to 14 inches from the surface. Repeat as necessary.

To Kill Ants: Apply to Ant trails and around door sills, window frames and other places where Ants may enter.

STORAGE AND DISPOSAL Do not store near heat or open flame. Wrap container and put in trash collection. Never throw container into fire or incinerator.

Dear Ms. Tryson:

Subject: Application for Amended Label
Flying and Crawling Insect Spray IV
EPA Reg. No. 9688-52
Submission Dated December 9, 1993

The labelling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. The efficacy data submitted to support the mothproofing claim is acceptable. The high mortality of adults exposed to aged cloth for 2 to 7 days gives adequate assurance of the long-term protection offered against this fabric pest by a single application. Retreatment at 6-month intervals should suffice.
 2. Revised the Storage and Disposal statement to read as follows:

"Store in cool, dry area away from heat or open flame. Replace cap before discarding. Securely wrap original container in several layers of newspaper and discard in trash. Do not incinerate or puncture container."
 3. Revised the "Physical and Chemical Hazards" statement to read as follows:

"Extremely flammable. Contents under pressure. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting."
- 1/5

2 13
)

4. Revise the Statement of Practical Treatment to read as follows:

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person in unconscious, do not give anything by mouth and do not induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing separately. Get medical attention.

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

If you have any questions or comments, please contact me at (703) 305-7001.

Sincerely yours,

/s/
