ACCEPTED
AUG - 3 1993

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 9688-63

Kills roaches, houseflies, mosquitoes, spiders, fleas, ticks, crickets, silverfish, small flying moths, ants, palmetto bugs, wasps, centipedes, rice weevils, sawtoothed grain beetles, black carpet beetles and pill bugs.

When used as directed, it will not harm drapes, upholstery, fabrics, carpeting, bedspreads, clothing, linens, furniture, walls, floor tiles, ceilings, shades or blinds.

One can treats 6000 cubic feet (a room up to 25' x 30' with an 8' ceiling) of unobstructed area with an effective bug killing fog that leaves no unpleasant residual odor. Do not use this unit in an area less than 1500 cubic feet.

READ ENTIRE LABEL BEFORE USE.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

1. Cover exposed food dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows.
2. Tilt top of can away from face. Press valve all the way down, hooking the catch.
3. Then place fogger on stand, table or floor in center of room with the valve locked open, with several layers of newspaper or pad under fogger. Leave treated area for 2 hours.
4. After 2 hours, open all doors and windows, turn on air conditioners and fans and let the treated area air out for 30 minutes.

Repeat spraying in two to four weeks if necessary. Use one can for each 6,000 cubic feet of unobstructed area. Do not use this product in an area less than 1500 cubic feet. Use additional cans for remote rooms or where free flow of mist is not assured.

TO KILL TICKS AND FLEAS.

Remove and destroy pet's old bedding. Apply this product as for other insects. Put fresh bedding in pet's quarters after treatment. Treat dogs and cats with a flea and tick product registered for animal application before allowing them to re-enter the treated area. **CONTROLS ADULT FLEAS AND LARVAE FOR UP TO FOUR WEEKS.**

**AUTOMATIC
