Ms. Kathie J. Tryson
Chemisco
8825 Page Boulevard
St. Louis, Missouri 63114

Dear Ms. Tryson:

Subject: Amendment-Label and Confidential Statement of Formula
Chemisco Tralomethrin Indoor Fogger
EPA Registration No. 9688-78
Your Submissions dated July 23, and November 23, 1993

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

In reference to the Confidential Statement of Formula, please provide the flash point of product as stated below:
.....Flammability: Flash point/flame extension. The flash point reported exceeds the one expected for this product. Please check and resubmit. Mixtures marketed under pressure, including those containing hydrocarbons, are subject in their entirety to tests indicated in 40 CFR Section 156.10(h)(2)(iii) of the maxipackage.

Note that this product is a fogger-type aerosol, i.e., its contents are under pressure. The propellant is a mixture of isobutane and propane which makes up about one third of the product. Each of these propellants has flash points of less than 20°F. It is therefore important that the flash point be determined on this product. The flame extension test alone is not enough to adequately assess the product's flammability. Please refer to (40 CFR 156.10(h)2(iii)). Labeling statements may need revision pending determination of flash point for the subject product.

Sincerely yours,

George T. LaRocca
Product Manager (13)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

Chemisco Tralomethrin Indoor Fogger

- Kills Roaches
- Kills Both Adult and Pre-adult (Larvae) Fleas
- Prevents Reinfestation for up to 8 weeks
- Water-Based (Non-Staining, No Odor)

Also kill ticks, cockroaches, flies, mosquitoes, wasps, spiders, crickets and silverfish.

For use in rooms, apartments, homes, attics, basements, campers, boats, garages, pet sleeping areas, household storage areas, cabins, non-food areas of schools, restaurants, hotels and non-patient areas of nursing homes and hospitals.

STOP! READ ENTIRE LABEL BEFORE USE.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

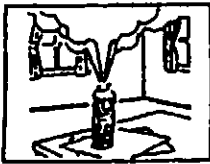

Preparation:

1. Cover exposed food dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows.
2. SHAKE WELL BEFORE USING

How to Use:

Step 1
Tilt top of can away from face (fogger sprays straight up). Press valve all the way down, hooking the catch.

Step 2
Set fogger on stand, table or floor in center of room with the valve locked open, placing several layers of newspaper or pad under fogger. Vacate treated area for 2 hours.

After 2 hours, open all doors and windows, turn on air conditioners and fans and let the treated area air out for 30 minutes. Repeat spraying as necessary. Use one fogger for each 6,000 cubic feet of unobstructed area. Do not use fogger in an area less than 100 cubic feet. Use additional units for remote rooms or where free flow of mist is not assured.

To kill Fleas or Ticks: Remove and destroy pet's old bedding. Apply this product as for other insects. Put fresh bedding in pet's quarters after treatment. Treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.

CHEMSICO TRALOMETHRIN INDOOR FOGGER

Kills Both Adult and Pre-adult (Larvae) Fleas

Kills Roaches · Kills Bugs Where

They Hide · Finds Even Hidden Bugs
