Mr. William Metzger  
United Industries Corp.  
8825 Page Blvd.  
St. Louis, MO 63114

Dear Mr. Metzger:

Subject: Updated Labeling  
Real-Kill Automatic Indoor Fogger II  
EPA Registration No. 478-126  
Hot Shot Fogger V  
EPA Registration No. 8845-123  
Chemsico Tralomethrin Indoor Fogger  
EPA Registration No. 9688-78  
Chemsico Tralomethrin Insecticide F  
EPA Registration No. 9688-119  
Your Application Dated September 5, 1997

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling:

1. Revise the heading "Physical Hazards" to read "Physical or Chemical Hazards". This heading should appear on all labeling and any previously approved labeling with the incorrect heading should be corrected at the next label printing.
2. Per the upcoming final rule for total release foggers add the following statement to Physical or Chemical Hazards: "This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly. Follow the "Directions for Use" on this label very carefully."
3. Move the user statement "For Household Use Only" to the front panel.
4. Products containing permethrin were never approved for use in the food areas of food handling establishments since permethrin is classified as a category C carcinogen (possible human carcinogen). Therefore as indicated in our October 1, 1997 letter

2/4

reinstate under Precautionary Statement or Direction for Use the statement "Do not use in commercial food handling establishments, restaurants or other areas where food is commercially prepared or processed".

5. Delete the optional claim "and their hatching eggs". This claim is only appropriate for products in combination with an IGR like methoprene.

Submit two copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca  
Product Manager 13  
Insecticide Branch  
Registration Division (7505C)

### STOP! READ ENTIRE LABEL BEFORE USE.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### PREPARATION:

1. Cover exposed food, dishes and food handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Put out all flames and pilot lights. Close doors and windows.
2. SHAKE WELL BEFORE USING

### HOW TO USE:

Step 1  
Tilt top of can away from face (fogger sprays straight up). Press valve all the way down, hooking the catch.

Step 2  
Set fogger on stand, table or floor in center of room with the valve locked open, placing several layers of newspaper or pad under fogger. Vacate treated area for 2 hours.

After 2 hours, open all doors and windows, turn on air conditioners and fans and let the treated area air out for 30 minutes. Repeat spraying as necessary. Use one fogger for each 6,000 cubic feet of unobstructed area. Do not use fogger in an area less than 100 cubic feet. Use additional units for remote rooms or where free flow of mist is not assured.

To Kill Fleas or Ticks: Remove and destroy pet's old bedding. Apply this product as for other insects. Put fresh bedding in pet's quarters after treatment. Treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.

### STORAGE AND DISPOSAL

Store in cool, dry area away from heat or open flame. Discard container in trash. Do not incinerate or puncture container.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if absorbed through skin or if inhaled. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food, feedstuffs and domestic water supplies. Do not use in the food/feed areas of food/feed handling establishments, restaurants or other areas where food/food is commercially prepared or processed. Do not use in serving areas where food/food is exposed. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly wash before use. Nonfood/nonfeed areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning and bottling). Remove pets, birds and cover fish aquariums before spraying. Not for use in USDA meat and poultry plants. *revised*

#### STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting because of aspiration hazard. Get medical attention. If on Skin: Wash off with soap and water. Get medical attention if irritation persists. If In Eyes: Flush with plenty of water. Get medical attention if irritation persists. If Inhaled: Remove victim to fresh air. Get medical attention. *Directions Before you fog*

### PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION** See side for additional precautionary statements

NET WT. 6 OZ.

Kills [roaches] [cockroaches], fleas, spiders, flies, mosquitoes, silverfish, crickets, ticks and wasps.

For use in rooms, apartments, homes, attics, basements, garages, pet sleeping areas and cabins.

**STOP** [STOP!] Read entire label before use.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling For household use only.

### TO USE THIS PRODUCT CORRECTLY

Turn off ALL ignition sources such as pilot lights (shut off gas valve), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.) Call your utility or management company if you need assistance.

DO NOT use more than one fogger per room. One can treats a room up to 25 ft. x 30 ft. with an 8 ft. ceiling.

DO NOT use in small, enclosed spaces such as closets, cabinets, or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller. Instead, allow the fog to enter from other rooms.

## BEFORE YOU FOG

Cover or removed exposed food, dishes and food preparation equipment. Open cabinets and doors. Shut off fans and air conditioners and turn off all ignition sources as directed above. Remove pets including birds. Cover and turn off fish tanks. Close outside doors and windows.

Graphic:  
Food being covered.

## TO START FOGGING

1. Place several layers of newspaper or paper towels on a table, stand or floor in center of room. Cover waxed wood floors and waxed furniture in the immediate area surrounding the fogger. Newspapers may be used.

Newspaper on a stool or furniture covered.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated

JUN 16 1998

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 9688-78

Graphic:  
Valve locking.

2. SHAKE WELL BEFORE USING. Tilt can top away from face. Press valve all the way down, hooking the catch.
3. Set can on newspaper or paper towels and leave the premises immediately. Do not re-enter treated area for two hours.

## AIRING OUT

After two hours, open all doors and windows, turn on air conditioner and fans and air out for 30 minutes. Re-apply every eight weeks if needed.

NOTE: When treating for fleas or ticks, clean and treat pet sleeping areas. Also treat dogs and cats with a flea and tick control product registered for use on pets before allowing them to enter the treated areas. For heavy infestations or fleas in deep pile carpeting, re-apply every two to four weeks if needed.

## STORAGE AND DISPOSAL

Store in cool, dry area away from heat or open flame. Discard container in trash. Do not incinerate or puncture container.

## PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if absorbed through skin or if inhaled. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food and drinking water. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use.

**First Aid - If on Skin:** Wash with plenty of soap and water. Get medical attention if irritation persists. **If Inhaled:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention. **If Swallowed:** Do not induce vomiting because of aspiration hazard. Get medical attention. **If in Eyes:** Flush with plenty of water. Call a physician if irritation persists.

**Physical Hazards -** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with directions.
