EPA Registration No. 9688-86  
Chemsico Home Insect Control E  
EPA Registration No. 9688-87  
Your Submissions Dated March 26, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

At your next label printing, please revise in accordance with the following comments:

1. For Chemsico Tralomethrin Insecticide A, EPA Registration No. 9688-79 and Chemsico Tralomethrin Insecticide B, EPA Registration No. 9688-86 under Precautionary Statements add "feed" to "food" as follows:

- . . . food/feed is commercially prepared . . . .
- . . . food/feed processing surfaces . . . .
- . . . serving areas where food/feed is exposed . . . .

63221:I:A-4:Moats:WP13-9:KEVRIC:05/12/92:06/11/92:DD

**BEST AVAILABLE COPY**

2. For Chemsico Home Insect Control A, EPA Registration No. 9688-80, Chemsico Home Insect Control B, EPA Registration No. 9688-81, and Chemsico Home Insect Control D, EPA Registration No. 9688-87, make the following revisions:

- a. Add food to feed as follows:

. . . food/feed handling establishments . . . .

- b. ". . . utensils thoroughly washed before reuse instead of wash.

Sincerely yours,

George T. LaRocca  
Product Manager (13)

Net Weight 11 oz.

**BEST AVAILABLE COPY**

Chemsico Tralomethrin Insecticide A is a highly effective formulation which provides rapid kill of crawling insects as listed below. In addition to rapid initial kill, Chemsico Tralomethrin Insecticide A stays on treated surfaces and provides residual insect killing power for up to three months after spray deposit has dried.

### Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Read entire label. Use strictly in accordance with label precautionary statements and directions.**

### Shake Well Before Using

**HOW TO USE:** Spray infested surfaces until wet moving the spray stream rapidly to prevent excessive wetting of surfaces and waste of material. Point spray away from people, plants and pets. Do not introduce the spray into air or allow the spray to contact food or food contacting surfaces. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

**DIRECTIONS: INDOORS for SPOT TREATMENT only -** Within residential buildings including homes and apartments and within non-food areas of industrial, institutional and commercial buildings including stores, manufacturing plants, warehouses and hospitals (NOTE: Do not apply this product in hospital patient rooms while occupied or in any room while occupied by the elderly or infirm). For control of **Cockroaches, Ants, Spiders (Including Black Widow Spiders), Crickets, Firebrats, Silverfish and stored product Insects (Including adults and larvae) such as Confused Flour Beetles, Saw-toothed Grain Beetles, Indian Meal Moths, Rice Weevils, Mediterranean Flour Moths and Red Flour Moths.** Direct spray into cracks and crevices in walls, dark corners of rooms, cabinets and closets, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations, around waste containers and wherever else these pests may find entrance. Residual activity lasts up to three months.

For control of **Carpet Beetles**, spray along baseboard and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelves and wherever else these insects are seen or suspected. For control of **Fleas and Brown Dog Ticks**, spray infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and to localized areas of floor coverings where these pests may be present. Test inconspicuous sample of fabric or rug for staining before use. Old bedding of pets should be removed and cleaned or replaced with clean, fresh bedding after treatment of pet area. **Do not treat pets with this product.** To control the source of fleas infestation, pets inhabiting the treated premises should be treated with a product registered for animal application.

**OUTDOORS -** (for use as an aid in reducing annoyance from these insects). **Flees, Mosquitoes -** Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also spray

surfaces around light fixtures on porches, where these insects alight or congregate. **Brown Dog Ticks, Crickets, Fleas and Ear** of infestation of these insects in outdoor areas, bushy non-crop areas. Spray infested areas thoroughly wet hills and runways. Repeat warrant and as reinfestations occur.

### STORAGE AND DISPOSAL

Store in cool, dry area away from heat or open flame. Do not incinerate or puncture containers.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans and Domestic Animals

**CAUTION:** May be harmful if swallowed, inhaled or absorbed through skin or clothing. Avoid breathing vapors or spray mist. Avoid contact with eyes, nose, mouth and skin. Avoid contamination of food, feed and animal supplies. Do not use in food/feed areas of homes, schools, day care centers, hospitals, establishments, restaurants or other areas where food is prepared or processed. Do not use in serving areas of restaurants or facilities in operation. Serving areas are those areas where food is prepared or held. In the home, all food and food preparation utensils should be covered during treatment. Do not use in food/feed areas such as dining rooms, but exclude areas where food is prepared or held. In the home, all food and food preparation utensils should be covered during treatment. Nonfood/nonfeed areas are areas such as lavatories, floor drains (to sewers), entries and utility rooms, machine rooms, boiler rooms, garages, etc. (after canning and bottling). Remove pets, birds and fish before spraying. Not for use in USDA meat processing plants.

#### Statement of Practical Treatment

**If on Skin:** Wash off with soap and water. If irritation persists. **If Swallowed:** Do not induce vomiting. Get medical attention. If inhaled: Get medical attention if irritation persists.

#### Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water.

#### Physical Hazards

Contents under pressure. Do not use or store in a damaged container. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**NOTICE:** Buyer assumes all responsibility for use of this pesticide in accordance with directions.
