Chemsico Tralomethrin Insecticide A is a highly effective formulation which kills crawling insects fast. Chemsico Tralomethrin Insecticide A stays on treated surfaces and provides residual insect killing power for up to four months (Optional: 16 weeks) after the spray has dried. (Optional Claims: Chemsico Tralomethrin Insecticide A also stays on treated surfaces providing insect protection for up to 16 weeks.)

STOP! READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. FOR HOUSEHOLD USE.

HOW TO USE

Shake well before using. Spray surfaces until wet, moving the spray rapidly to prevent excessive wetting and waste of product. Point spray away from people, pets and plants. Do not use as a room spray.

Do not allow the spray to contact food or food contacting surfaces. Thoroughly wash dishes, utensils and counter tops with soap and water if they are sprayed with this product. Do not allow people or pets to contact treated surfaces until spray has dried. Remove pets and cover aquariums before spraying.

INDOORS

FOR SPOT TREATMENT ONLY - For control of Cockroaches, Ants, Spiders (including Black Widow Spiders), Crickets, Firebrats, Silverfish and stored product insects (including adults and larvae) such as Confused Flour Beetles, Saw-toothed Grain Beetles, Indian Meal Moths, Rice Weevils, Mediterranean Flour Moths and Red Flour Moths. Direct spray into cracks and crevices in walls, dark corners of rooms, cabinets and closets, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations, around waste containers and wherever else these pests may find entrance. Residual activity lasts up to four months.

For control of Fleas and Brown Dog Ticks, spray infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor coverings where these pests may be present. Test inconspicuous sample of fabric or rug for staining before use. Old bedding of pets should be removed and cleaned or replaced with clean, fresh bedding after treatment of pet area.

Do not treat pets with this product. To control the source of flea infestations, treat your pet with a product registered for animal application (Optional: such as . . .). Also treat your yard with a product registered for yard application (Optional: such as . . .).

For control of Carpet Beetles, spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelves and wherever else these insects are seen or suspected. Test inconspicuous sample of fabric or rug for staining before use. *Note: Check carpet manufacturer's*

warranty and care and maintenance information before using product on your specific brand of carpeting.

OUTDOORS (As an aid in reducing annoyance from these insects)

Flies, Mosquitoes - Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also spray surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate. Repeat as necessary. **Ants, Brown Dog Ticks, Crickets, Fleas and Earwigs** - Thoroughly spray infested weeds or bushy non-crop areas. For **Ants**, thoroughly wet hills and runways. Repeat as necessary.

STORAGE AND DISPOSAL

Store in cool, dry area away from heat or open flame. Discard container in trash. Do not incinerate or puncture container.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Avoid contamination of food and drinking water. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and cover aquariums before spraying.

Statement of Practical Treatment

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists. **If Swallowed:** Do not induce vomiting because of aspiration hazard. Get medical attention. **If in Eyes:** Flush with plenty of water. Get medical attention if irritation persists.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
