Mrs. Jill S. Preece
Regulatory Affairs Specialist
CHEMSICO
Division of United Industries Corp.
Post Office Box 15842
St. Louis, MO 63144

Dear Mrs. Preece:

Subjects: Alternate CSF and Revised Labeling
CHEMSICO Home Insect Control A
EPA Registration Number 9688-80
Your Amended Application Dated May 26, 1994

The confidential statement of formula (CSF) and labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following comments:

1. As required in 40 CFR § 152.43, alternate formulations must have the same certified limits for each active ingredient as the basic formulation. Accordingly, the upper and lower certified limits for tralomethrin should be changed to 0.012% and 0.010%, respectively so that they are in agreement with the certified limits for the basic formulation CSF dated July 12, 1993.
2. The inert ingredients "Vhemia #13088 Floral Potpourri Fragrance and stabilizer "Ethylenediaminetetraacetic acid, sodium salt" is acceptable for use in the alternate CSF dated may 25, 1994.
3. With respect to the submitted label, the descriptor "New" in the fragrance names is acceptable for use on new labeling for a period of six months from the date of this letter. We do not object to the term "Leave no odor."

Sincerely,

George T. LaRocca
Product Manager (13)
Insecticide-Rodenticide Branch
Registration Division (7505C)

Chemsico Home Insect Control A

- Do-it-yourself Pest Control
- Fast Killing
- Kills Even Hidden Bugs
- Keeps on Killing
- Water-Based (Non-Staining, No Odor)

STOP! READ ENTIRE LABEL BEFORE USE.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

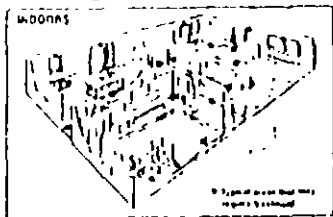

Sprayer Instructions:

How to prime and care for your sprayer:

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

SHAKE WELL BEFORE USING

INDOORS:

• Typical areas that may require insecticide treatment.

FOR HOMES, APARTMENTS AND BUILDINGS — INDOORS: Spray areas where cockroaches, Palmetto bugs, ants, clover mites, crickets, firebrats, waterbugs, silverfish and spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants, apply to ant trails, around doors and windows and wherever else these pests may find entrance. For control of carpet beetles, thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected. For control of fleas and brown dog ticks, thoroughly spray pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet area. Do not treat pets with this product. To control the source of flea infestations, pets inhabiting the flea-infested premises should be treated with a product registered for application to animals. Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

CHEMSICO
