OPTIONAL MARKETING LANGUAGE

[Chemisco Tralomethrin Insecticide B is an effective formulation, which kills crawling insects fast. Chemisco Tralomethrin Insecticide B stays on treated surfaces and provides residual insect killing power for up to three months [12 weeks] after the spray has dried.]

[Chemisco Tralomethrin Insecticide B also stays on treated surfaces providing insect protection for up to 12 weeks.

[Chemisco Tralomethrin Insecticide B kills [controls] ants (including carpenter ants), roaches, crickets and fleas for up to 3 months [(12 weeks)]. It also kills flies, mosquitoes, brown dog ticks, and other listed insects.]

STOP! READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use.

HOW TO USE

Shake well before using. Spray surfaces until wet but not to the point of runoff, moving the spray rapidly to prevent excessive wetting and waste of product. Point spray away from people, pets and plants. Do not use as a room spray.

Avoid contamination of food and drinking water. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Do not allow the spray to contact food or food contacting surfaces. Thoroughly wash dishes, utensils and counter tops with soap and water if they are sprayed with this product. Do not allow people or pets to contact treated surfaces until spray has dried. Remove pets and cover aquariums before spraying.

INDOORS

For Spot Treatment Only - For control of Cockroaches, Ants, Carpenter Ants, Spiders (including Black Widow Spiders), Crickets, Firebrats, Silverfish and stored product insects (including adults and larvae) such as Confused Flour Beetles, Sawtoothed Grain Beetles, Indian Meal Moths, Rice Weevils, Mediterranean Flour Moths and Red Flour Moths. Direct spray into cracks and crevices in walls, dark corners of rooms, cabinets and closets, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations, around waste containers and wherever else these pests may find entrance. Residual activity lasts up to two months [Kills returning insects for up to four weeks].

For control of Fleas and Brown Dog Ticks, spray infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and doorframes and localized areas of floor coverings where these pests may be present. Test inconspicuous sample of fabric or rug for staining before use. Old bedding of pets should be removed and cleaned or replaced with clean, fresh bedding after treatment of pet area. Do not treat pets with this product. To control the source

of flea infestations, treat your pet with a product registered for animal application [such as...]. Also treat your yard with a product registered for yard application [such as...].

For control of Carpet Beetles, spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelves and wherever else these insects are seen or suspected. Test inconspicuous sample of fabric or rug for staining before use.

Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

OUTDOORS

For outdoor use only as an aid in controlling these insects.

Flies, Mosquitoes - Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also spray surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate.

Ants, Carpenter Ants, Brown Dog Ticks, Crickets, Fleas and Earwigs - Thoroughly spray infested weeds or bushy non-crop areas. For ants, thoroughly wet hills and runways.

STORAGE AND DISPOSAL

Storage: Store in cool, dry area away from heat or open flame. **Disposal:** Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. **If Swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
