NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit to the Administrator of the Environmental Protection Agency, for registration/reregistration of your product under FIFRA section 3(c)(7)(B) or FIFRA section 4(w)(2), the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

A. Add the phrase "EPA Registration No. 9888-89."

Chemsico Diazinon 2G kills: Ants, Armyworms, Bermudagrass mites, Billbugs, Brown dog ticks, Chiggers, Chinch bugs, Clover mites, Crickets, Cutworms, Digger wasps, Earwigs, Fire ants*, Fleas, Lawn moths, Leafhoppers, Millipedes, Springtails, Sod webworms, Sowbugs, White grubs of: Japanese beetles, European chafer, Southern chafer * Aids in control

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

LAWN APPLICATION

Chemsico Diazinon 2G granules control lawn pests on both grass and dichondra lawns. Apply at the rate of 1 lb. per 200 sq. ft. (an area 20' by 10') or 8 oz. per 100 sq. ft. (an area 10' by 10')

Chinch bugs, Earwigs, Ants, Lawn Moths (Sod Webworms), Bermudagrass Mites, Crickets, Armyworms, Brown Dog Ticks, Chiggers, Clover Mites, Cutworms, Fleas, Leafhoppers, Sowbugs, Millipedes, Springtails (Collembola): Application should be made when grass is dry. Water lawn lightly after application. Repeat application in 7-10 days if necessary.

Billbugs; White grubs of Japanese beetle, European chafer, Southern chafer, Ataenius spretulus (dung beetle): Water grass thoroughly after application. For billbug control, apply when activity is first observed or when chewed or brown grass indicates damage from these insects. Repeat as necessary

For grub control, except dung beetle, treat any time between late July and early October. For dung beetle grub control, apply in Spring or early Summer when damage is first noticed. Water grass thoroughly with 1/4-1/2 in. of water after application. Treat again in late Summer or early Fall if a second generation occurs

Hyperion Weevils: Water grass thoroughly after application. Treat problem areas in mid-April and again in mid-May.

SPOT TREATMENT IN LAWNS AND GARDENS

Ants: Apply one tablespoon of granules over and around each individual ant hill.

Fire Ants: To aid in the control of fire ants in lawns, apply 1 1/4 cups over and 2' around each fire ant mound. Immediately after application, water in thoroughly. A minimum of 1 gallon of water should be applied to each mound area. Apply water gently to avoid disturbing ants. Use of high pressure watering equipment may disturb the ants and cause migration, reducing product effectiveness. Treat as necessary. Note: For best results, apply in cool weather, 65-80°F or in early morning or late evening hours. Treat new mounds as they appear

Digger wasps: Apply one tablespoon of granules in and around each individual ground nest opening. Make the application about dusk when the wasps are not active

BAND TREATMENT AROUND FOUNDATION

The following insects are commonly found around or near the foundation of houses as well as in the lawn.

Ants, Brown dog ticks, Clover mites, Crickets, Earwigs, Fleas, Millipedes, Sowbugs, Springtails (Collembola): For control of the these insects, apply a five-foot band of granules next to the foundation of the house. Distribute the granules uniformly using a rate of 8 oz. for each 5' by 20' area to be treated.

**Diazinon 2G
Lawn Insect Control**

For outdoor use on the home lawn only

This product must not be used on golf courses and sod farms.

Ready to use • Contains 2% Diazinon Insecticide

Kills Home Invading Pests—Ants, Brown dog ticks, Fleas, Clover mites, Crickets, Earwigs, Millipedes, Sowbugs.

Effective Ant Control • Kills ants and other insects in lawns & gardens • Kills lawn insects—As listed on back

*Aids in control

Treats up to 200 square feet

Active Ingredient:

Diazinon O,O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 2%
Inert Ingredients 98%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See additional precautionary statements on back

Net Weight 1 pound

JUN 15 1992

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 140-63114-5842

STORAGE AND DISPOSAL

Storage: Store in original container inaccessible to children and domestic animals. Do not reuse empty container in several layers of newsprint.

PRECAUTIONS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid breathing dust and contact with eyes. Wash hands thoroughly after handling and before smoking or eating. Avoid repeated contact with skin of susceptible persons. In case of accidental result, contact a physician. Do not use measuring devices such as tablespoons or measuring cups in measuring pesticides. Do not allow children or pets onto the treated area until the grass has dried.

Statement of Practical Treatment

If swallowed, call a physician immediately. Do not induce vomiting by touching the back of the tongue. If eye fluid is clear. Do not induce vomiting if unconscious or convulsing. If inhaling, use artificial respiration if indicated. If on skin, wash thoroughly. If in eyes, rinse immediately. Note to Physician: This product is an anticholinergic. If symptoms of cholinesterase inhibition are present, 2-PAM is also antidotal. 2-PAM is also antidotal in conjunction with atropine.

Environmental Hazards

This product is highly toxic to birds, fish, and aquatic life. Avoid waterfowl, feeding or drinking on treated areas. Due to migratory habits of certain Atlantic seabirds, avoid application to lawns in Nassau County, New York. Do not exceed maximum permitted label rate. Excessive application may significantly increase potential hazards. Avoid application to waterfowl, ducks or geese, can be expected in treated areas (see treatment), apply a minimum of 1/4 inch of water. However, stop watering before water or wetlands (swamps, bogs, etc.) are reached. This product is hazardous to aquatic organisms in ponds, tidal marshes and estuaries. Do not apply to water. Do not apply to aquatic life are important resources.

NOTICE: Buyer assumes all responsibility for proper use with directions.
