St. Louis, MO 63114

161 / 434118  
18

NOTE: Changes in labeling formula, differing in substance from that accepted in connection with this registration as submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for reregistration of your product under FIFRA sec. 3(c)(7)(A) when the Agency requires all registrants of this product to submit such data.
2. Add the phrase, "EPA Registration No. 9688-91."
3. Revise your labeling so that Directions For Use, Precautionary Statements, label claims, etc. are identical to Chemsico Home Insect Control A (EPA Registration No. 9688-80). Retain the mixing instructions which will be the only difference between the labels. Use Chemsico Home Insect Control A label dated May 14, 1992 (our most current reviewed labeling) as a reference.

c. The claim "new" may be used on the labeling of a product of new composition for a period of 6 months following approval of the labeling.

3. Under Statement of Practical Treatment your product carries a IF ON SKIN statement for a toxicology category III. Therefore you must add this statement to the Chemsico Home Insect Control A labeling.

4. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Chemsico

Home Insect Control Refill

Kills on Contact • Protects Up to 2 Months  
Use Indoors and Outdoors • No Lingering Odor

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Mixing Directions:**

Pour the entire contents of this bottle into an empty one gallon Chemsico Home Insect Control A container. Fill this bottle with water and pour the contents into the gallon container. Repeat at least two additional times to completely rinse out the contents. Add water to the gallon container to fill approximately one inch from the top. Replace the cap and shake contents well before use.

Note: This concentrate refill will make one gallon of Chemsico Home Insect Control A. This is intended to be used in an empty Chemsico Home Insect Control A one gallon container only, and is not to be put into any other containers or bottles. This is a single use container, and the entire contents of the bottle are to be used at one time.

**INDOORS:** Spray areas where cockroaches, ants, crickets, fleas, silverfish and spiders are found or normally occur, including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants, apply to ant trails; around doors and windows and wherever else these pests may find entrance. For control of fleas and brown dog ticks, thoroughly spray pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean fresh bedding after treatment of pet area. Do not treat pets with this product. To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.
