St. Louis, Mo. 63114-0842

Dear Ms. Loft:

SUBJECT: Label Amendment
Chemisco Spot Weed Killer A
EPA Registration No. 9688-109
Your Application Dated May 21, 1996

The labeling referred to above, submitted in accordance with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable with the following provisions:

1. Under the "Ingredient Statement" add the word "TOTAL" after the ingredients, and the number "100.00%" across from it (under the percentage column). This was one of the label changes noted in the Agency's Notice of Pesticide Registration, dated September 26, 1995.
2. Under the "Storage and Disposal" statements correct the spelling of the word "thoroughly".

A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the above mentioned label before releasing the product for shipment.

Sincerely yours,

Joanne I. Miller
Product Manager (23)

Chemsico Spot Weed Killer A

Chemsico Spot Weed Killer A kills more than 33 types of broadleaf lawn weeds down to the root. And Chemsico Spot Weed Killer A is formulated to kill only the weeds, not the lawn.

Use Chemsico Spot Weed Killer A as directed to spot treat the following types of weeds in your lawn:

Bedstraw	English Daisy	Mustard	Sheep Sorrel
Black Medic	Filaree	Oxalis	Shepherdspurse
Buckhorn	Fleabane	Pennywort	Speedwell
Canada Thistle	Ground Ivy	Pepperweed	Spurge
Chickweed	Heal-All	Pigweed	Wild Carrot
Chicory	Henbit	Plantain	Wild Garlic
Clover	Knotweed	Poison Ivy	Wild Lettuce
Cudweed	Lambsquarter	Poison Oak	Wild Onion
Curled Dock	Lespedeza	Prickly Lettuce	Yarrow
Dandelion	Matchweed	Purslane	
Dollarweed	Morning Glory	Ragweed	

STOP! READ ENTIRE LABEL BEFORE USE.

(Optional: Stop. Read all instructions inside before using.)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep people and pets off treated areas until dry.

(OPTIONAL HAND SPRAYER DIRECTIONS)

1. Shake well.
2. Connect trigger sprayer. Unscrew and discard the white cap on the bottle. Insert the hose into the bottle and tighten the cap securely.
3. Prime Sprayer: Turn the sprayer nozzle one-half turn counter-clockwise. Hold the sprayer lower than the bottle and squeeze the trigger several times until it sprays. Adjust the nozzle to coarse spray pattern to minimize wind drift (graphic).
4. Spray just enough Chemsico Spot Weed Killer A to lightly cover broadleaf weeds. **Excessive spraying can injure some lawns.** Do not spray weeds growing within the dripline of trees. (graphic). Do not apply when daytime temperatures are above 85°F as lawn injury can occur (graphic). Spray only the weeds, not the entire lawn.
5. Weeds will begin wilting and browning within a few days.

STORAGE AND DISPOSAL (For hand sprayer)

Turn the nozzle to "OFF" position and store with sprayer above the level of liquid in container to prevent leakage. Store in original container in a cool, dry area away from heat or open flame and in an area inaccessible to children and pets. Keep from freezing. Do not reuse container. Rinse thoroughly and securely wrap original container in several layers of newspaper and discard in trash.

(OPTIONAL TRIGGER SPRAYER DIRECTIONS)

1. Shake well.
2. Adjust nozzle to coarse spray pattern to minimize wind drift (graphic).
3. Spray just enough Chemsico Spot Weed Killer A to lightly cover broadleaf weeds. **Excessive spraying can injure some lawns.** Do not spray weeds growing within the dripline of trees (graphic). Do not apply when daytime temperatures are above 85°F as lawn injury can occur (graphic). Spray only the weeds, not the entire lawn.
4. Weeds will begin wilting and browning within a few days.

STORAGE AND DISPOSAL (For trigger sprayer)

Store in original container in a cool, dry area away from heat or open flame and in an area inaccessible to children and pets. Keep from freezing. Do not reuse container. Rinse thoroughly and securely wrap original container in several layers of newspaper and discard in trash.

USE TIPS (For both hand and trigger sprayers)

1. Some hard-to-kill weeds may require retreatment. Wait at least 3 weeks between applications — some weeds can take that long to die.
2. Do not water the lawn within 24 hours after spraying. If it rains within 24 hours of use, retreatment may be necessary.
3. Do not allow spray to drift onto desirable plants since injury may result.

(OPTIONAL POWER PUMP DIRECTIONS)

Revolutionary (NEW) Power Pump™ • Works like a pressure sprayer • Ready to Pump and Spray • Refillable • Power Pump Pressure Sprayer • Pump & Spray Your Weeds Away • Rest Your Trigger Finger Patent Pending

Chemsico Spot Weed Killer A kills more than 33 types of broadleaf lawn weeds down to the root. And the revolutionary Power Pump eliminates the need to squeeze a trigger sprayer

page 2 of 3

over and over again. The Power Pump works like a pressure sprayer - just pump it a few times and spray. And the Power Pump can be refilled up to 5 times with Real-Kill® Broadleaf Weed Killer for incredible value!

Use to Spot Treat: Bedstraw, Black medic, Buckhorn, Canada Thistle, Chickweed, Chicory, Clover, Cudweed, Curled dock, Dandelion, Dollarweed, English daisy, Filaree, Fleabane, Ground Ivy, Heal-all, Henbit, Knotweed, Lambsquarter, Lespedeza, Matchweed, Morning glory, Mustard, Oxalis, Pennywort, Pepperweed, Pigweed, Plantain, Poison ivy, Poison oak, Prickly lettuce, Purslane, Ragweed, Sheep sorrel, Shepherds-purse, Speedwell, Spurge, Wild carrot, Wild garlic, Wild lettuce, Wild onion, Yarrow and more!

STOP! READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep people and pets off treated areas until dry.

- 1. CONNECT WAND HOSE TO POWER PUMP BOTTLE.** Unwrap the wand. Unscrew and discard the Black Cap on the bottle. Push the Clear Tube down through the small opening on the bottle (graphic). Tightly screw the Green Hose Connector Cap onto the bottle (graphic). Make sure the Green Button on the wand is "OFF" or "UP" before pressurizing (graphic).
- 2. PRESSURIZE THE POWER PUMP.** Break off the Pump Handle "TAB" with your thumb (graphic). Pump 20-30 times to build up pressure. **NOTE:** The Power Pump bottle may bulge slightly as it is pressurized. Never pressurize by any means other than the pump included. You'll need to pump occasionally during use to keep the Power Pump pressurized.
- 3. SHAKE WELL** (graphic).
- 4. SPRAY LAWN WEEDS.** Spray just enough Chemsico Spot Weed Killer A to lightly cover broadleaf weeds. Do not spray weeds growing within the dripline of trees (graphic). Excessive spraying can injure some lawns. Just press the Green Button on the wand to spray. If needed, the button can be locked "ON" by pushing it down and forward at the same time. The reverse motion will lock it "OFF." Do not apply when daytime temperatures are above 85°F as lawn injury may occur (graphic). Spray only the weeds, not the entire lawn.

5. Weeds will begin wilting and browning within a few days.

USE TIPS

1. Some hard-to-kill weeds may require retreatment. Wait at least 3 weeks between applications — some weeds can take that long to die.
2. Do not water the lawn within 24 hours after spraying. If it rains within 24 hours of use, retreatment may be necessary.
3. Do not allow spray to drift onto desirable plants since injury may result.

REFILLING

The Power Pump can be refilled up to 5 times with Real-Kill® Broadleaf Weed Killer. Add 10 oz. of concentrate and dilute to a gallon with water. Use "Fill to Here" mark on the side of the Power Pump bottle as a guide. Shake well to mix. Make sure the Green Pump Cap and the Green Hose Connector Cap are tightly secured before re-pressurizing. Make sure the Green Button on the wand is "OFF" or "UP" before pressurizing (graphic). **IMPORTANT:** Do not refill more than 5 times. To keep track of the number of times refilled, put a mark through the appropriate number: (1) (2) (3) (4) (5-final). Do not use any product other than Real-Kill® Broadleaf Weed Killer in this Power Pump. Incompatible chemicals may damage the pump making it unsafe to use.

STORAGE AND DISPOSAL

Always release pressure by unscrewing the pump cap before storing. Store in original container in a cool, dry area away from heat or open flame and in an area inaccessible to children and pets. Keep from freezing. After 5 refills, rinse thoroughly and securely wrap original container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Causes eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wear goggles when applying this product. When using this product, wear long-sleeved shirt, long pants, socks, shoes and rubber gloves. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower. Wash hands before eating or smoking and after each use. Avoid contamination of food or feedstuffs.

First Aid

If Swallowed: Call a physician or Poison Control Center

immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Never induce vomiting or give anything by mouth to an unconscious person. **If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If on Skin:** Wash with plenty of soap and water. Get medical attention.

Environmental Hazards

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not contaminate domestic or irrigation waters. Do not apply when weather conditions favor drift from target area.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
