[Chemsico Tralomethrin Plus d-Trans Allethrin Insecticide S also stays on treated surfaces providing insect protection for up to 16 weeks.]

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

THINGS TO KNOW

Spiders are one of the most feared pests around the home. Spiders eat only other spiders and insects. Treating for all in-sects is the best way to control spiders.

[Chemsico Tralomethrin Plus d-Trans Allethrin Insecticide S has a convenient spray-any-way system which gives you the ability to reach the high places as well as the lower cracks and crevices where they live.] [With its unique any-way sprayer you can reach spiders and their webs in high places as well as lower cracks and crevices where they live.]

Scorpions are another feared pest. [Scorpions are one of the most feared pests around the home.] They can be found throughout the U.S. Although the sting of most scorpion is not serious it can be painful. The sting from the sculptured or bark scorpion, found in Arizona, Texas, California and New Mexico can be life threatening. Most people are stung because they accidentally touch or step on them. If you live in areas where scorpions are common, always shake out your shoes, gloves, clothing, and sleeping bag before using them. Other places scorpions like to hide are in stacks of lumber, firewood, rocks, compost piles and similar areas.

[Like spiders,] scorpions eat spiders and insects, so treating for [all] insects is a good way to control them.

HOW TO USE

1. SHAKE WELL BEFORE EACH USE.
2. Hold can upright. Aim opening away from people. Spray in short bursts to prevent excessive wetting and waste of product.
3. Avoid contamination of food and drinking water. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and cover aquariums before spraying. Do not allow people or pets to contact treated surfaces until spray has dried.

2/5

INDOOR**TO CONTROL:**

COCKROACHES, SPIDERS (including Black Widow Spiders), SCORPIONS, ANTS, CRICKETS, SOWBUGS, CENTIPEDES, FIREBRATS, AND OTHER COMMON HOUSE-HOLD PESTS:

1. Contact as many insects as possible with the spray in addition to thoroughly treating all parts of the room where these pests may hide.
2. Pay special attention to cracks, dark corners, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected. [Residual activity lasts up to four months.] [The treatment lasts up to four months.] [The treatment continues to work for up to four months.]
3. To kill **spiders** and prevent them from entering your home, spray around door and window frames, inside and outside. Spray upward to treat active spider webs. Do not remove spider webs until spray has dried.
4. For **scorpions**, stand at a safe distance and completely cover the pests. *Scorpions must be contacted by the spray to be killed [Alternate: Scorpions must be sprayed directly to be killed.]*
5. To kill **ants**, treat doors, around window frames, ant trails and other areas of entry.

OUTDOOR**OPTION A****TO CONTROL**

SPIDERS, FLIES, MOSQUITOES

1. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the home.
2. Also spray surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate.

OPTION B**TO CONTROL**

SPIDERS, SCORPIONS, ANTS, BROWN DOG TICKS, AND CRICKETS:

1. Thoroughly spray infested weeds or bushy non-crop areas.
2. For **scorpions**, carefully remove accumulated firewood, lumber, and other materials where scorpions like to hide (be sure to wear work gloves.) Treat beneath and next to the infested areas. When directly treating scorpions, stand at a safe distance and thoroughly cover the pests. *Scorpions must be contacted by the spray to be killed. [Alternate: Scorpions must be sprayed directly to be killed.]*
3. To kill **ants**, thoroughly wet hills and runways.

OPTION C**TO CONTROL**

SPIDERS, SCORPIONS, ANTS, BROWN DOG TICKS, CRICKETS, FLIES AND MOSQUITOES:

1. Thoroughly spray infested weeds or bushy non-crop areas.
2. For **scorpions**, carefully remove accumulated firewood, lumber, and other materials where scorpions like to hide (be sure to wear work gloves.) Treat beneath and next to the infested areas. When directly treating scorpions, stand at a safe distance and thoroughly cover the pests. *Scorpions must be contacted by the spray to be killed. [Alternate: Scorpions must be sprayed directly to be killed.]*
3. To kill **ants**, thoroughly wet hills and runways.
4. For **spiders, flies, and mosquitoes**, spray outside surfaces of screens, doors, window frames or wherever these insects may enter the home. Also spray surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate.

STORAGE AND DISPOSAL

Storage: Store in cool, dry area away from heat or open flame. **Disposal:** Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

FIRST AID

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

NOTIFICATION PER PR NOTICE 98-10

August 1, 2002

Document Processing Desk
Office of Pesticide Programs – H7504C
U.S. Environmental Protection Agency
401 M Street SW
Washington, DC 20460-001

Attention: G. LaRocca
Product Manager 13

Subject: Chemsico Tralomethrin Plus D-Trans Allethrin Insecticide S
EPA Reg. No. 9688-125
Notification per PR Notice 98-10

Dear Mr. LaRocca:

Enclosed is our notification per PR Notice 98-10 to correct a formatting error. The text “*Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the home. Also spray surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate.*” which is located in the INDOOR section, should have been in the OUTDOOR section under the heading: **TO CONTROL – SPIDERS, FLIES, MOSQUITOES**. This is where it was located on the most recently stamped accepted label and when it was reformatted was put in the wrong section. I also deleted the heading **OPTIONAL ALTERNATE FORMAT FOR OUTDOOR DIRECTIONS** and added the headings **OPTION A, OPTION B, AND OPTION C** to each set of outdoor directions.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

The following documents are enclosed in support of this submission:

1. Application for Pesticide (EPA Form 8570-1)
2. Five copies of the proposed label *with changes highlighted*
3. One copy of the final printed label.
4. One copy of the EPA stamped approved label and subsequent notification

Sincerely,

Glenda L. Mah
Senior Regulatory Affairs Specialist
