[DESCRIPTIVE COPY OPTIONS]

[OPTION A: Improved formula Chemsico Grass & Weed Killer PP RTU is now even tougher on most hard-to-kill grass & weeds. [ALTERNATE: Chemsico Grass & Weed Killer PP RTU is improved to be even tougher on most hard-to-kill grass & weeds.] Its unique formula is absorbed into grassy weeds and travels to the roots, killing the entire plant - roots and all. It works only when it contacts foliage and is deactivated when it hits the soil, making it ideal for use around flowers, shrubs and trees.]

[OPTION B: Improved formula Chemsico Grass & Weed Killer PP RTU is now even tougher on most hard-to-kill grass & weeds. [ALTERNATE wording for first time private label products: Chemsico Grass & Weed Killer PP RTU will kill most hard to kill grass and weeds.] Chemsico Grass & Weed Killer PP RTU's unique formula is absorbed into grassy weeds and travels to the roots, so it kills the entire plant, roots and all. Chemsico Grass & Weed Killer PP RTU is ideal for killing

unwanted grass & weeds throughout your yard . . . patios, walkways & driveways, flower & ornamental beds, and along fences. Also treat edges around buildings and other places where plants are not wanted (except lawns).

HOW IT WORKS - Chemsico Grass & Weed Killer PP RTU works systemically, which means it penetrates grassy weeds and travels directly to the roots. But, Chemsico Grass & Weed Killer PP RTU works only if it contacts foliage. Once it hits the ground, it is deactivated by the soil so it is ideal for use around shrubs, flower beds, and tree wells.]
