Active Ingredient:

Myclobutanil 0.012%
Other Ingredients 99.988%

KEEP OUT OF REACH OF CHILDREN

CAUTION See back for additional precautionary statements

NET WT. 15 OZ. [426 g]

[OPTION A

Chemsico Aerosol M protects roses, flowers and ornamental shrubs from damaging diseases. Its exclusive formula prevents and cures diseases and is ideal for use on delicate ornamental plants.

OPTION B

Chemsico Aerosol M prevents and stops [cures] a wide variety of diseases on roses, flowers and shrubs. It can't be washed off by rain or sprinklers once dried and it works for up to 2 weeks. Use this product throughout your yard to keep plants thriving.

USE ON

Ageratum, aster, azalea, begonia, carnation, chrysanthemum, iris, lilac, marigold, mock-orange, ninebark, pansy, petunia, privet, rhododendron, rose, salvia, snapdragon, spirea, sunflower, zinnia and others listed.

Prevents and cures . . . Black Spot, Brown Patch, Dollar Spot, Powdery Mildew, Rust, Blight and Leaf Spot]

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT ALLOW PEOPLE OR PETS TO CONTACT TREATED AREAS UNTIL SPRAY HAS DRIED.

USE RESTRICTIONS

Do not use treated plants for food or feed.

NOTE: This product is non-staining to most home siding depending on age and cleanliness. However, before using in areas where the spray may contact home siding (vinyl siding in particular), test in an inconspicuous area and re-check in a few hours. Do not use if any staining is observed.

TO PROTECT ROSES, FLOWERS, AND ORNAMENTAL SHRUBS

Chemsico Aerosol M prevents and cures black spot, blight (blossom, cercospora leaf, ovulinia petal), leaf spot (including cercospora), powdery mildew, rust (including needle, fusiform), scab (including fusicladium) and other diseases on a wide variety of roses, flowers, and ornamental shrubs. Treat roses on a 7 to 10 day schedule unless black spot is not a problem, then treat on a 10 to 14 day schedule. When treating azaleas, mountain laurel or rhododendrons, begin spraying when flowers start to show color. Treat all other listed plants when conditions favoring disease first start to develop.

Use with care on ferns, palms and fuchsia. As with all plants, especially carnations, chrysanthemums, and roses, there exists a wide variety of species, and therefore, a wide variety of susceptibility to injury. To test for plant sensitivity, spray a few plants as described above, wait 24 hours, and check for possible injury.

HOW TO USE [Alternate: HOW TO TREAT]

1. Shake well before using.
2. Begin early in the season. **Start treating when conditions favoring disease first start to develop.**
3. Hold can at least 18 inches from foliage when treating.
4. Spray with a slow sweeping motion, covering both upper and lower leaf surfaces and the stem. Apply to the point when spray just begins to run off the leaves.
5. For best results, repeat every 10 - 14 days throughout the season.

THINGS TO KNOW [Alternate heading: USE TIPS]

- ✓ This product is highly effective when it is used to prevent diseases. Treat early in the season when conditions favoring disease development ([warm] humid weather) begin.
- ✓ Allow spray to dry before watering. If it rains before product has dried, re-apply.
- ✓ If you need more information about flower or ornamental diseases contact your local County Extension Service.
- ✓ Do not spray if temperature is above 90 °F as damage to some delicate plants can occur.

- ✓ Spray early in the morning or evening, when air is still.
- ✓ Regular light sprayings are more effective than a single heavy treatment.

[DISEASES CONTROLLED]**ROSE**

Diseases: Black spot, Powdery mildew, Rust

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage:** Store in a cool area away from heat or open flame. **Pesticide and Container Disposal:** This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. **Before offering for recycling,** empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container in several layers of newspaper and discard in the trash.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 ° F may cause bursting.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

Questions or comments? Call 800-332-5553

Contains NO CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.
