OPTIONAL MARKETING LANGUAGE

[Chemsico's annual lawn program makes it easy to have a beautiful lawn. Use all 5 products for a complete lawn program or customize the program by using only the products your lawn needs.

Using the Chemsico annual lawn program is easy! Each product has an easy-to-use spray-ready nozzle that you attach to a garden hose and spray. No spreading or complicated mixing is required.

Chemsico's Annual Lawn Program Includes:

Lawn Food plus Crabgrass Preventer (working name)
Use in early spring to stop crabgrass before it can start.

Lawn Food plus Weed Control (working name)
Use April through June to keep your lawn weed free.

Lawn Food plus Insect Control (working name)
Use June through August to keep your lawn strong and insect free.

Liquid Lawn Food (working name)
Use August through September or anytime during the growing season to keep your lawn green and strong.

Winterizer (working name)
Use October through November

Chemsico Insecticide Concentrate N30-A controls ants, crickets, chinch bugs, fleas, brown dog ticks, and other listed lawn insects while feeding your lawn for two months. Apply in June - August for a lush, green, insect-free lawn.

Chemsico Insecticide Concentrate N30-A is [so much] easier than applying granules! With granules you have to wrestle with a big bag [of fertilizer], pour it into the spreader, push the spreader around your lawn and then water it in! (On top of that, you have to purchase an expensive spreader.) With Chemsico, you skip to the last step [, just water it in!]

Chemsico Insecticide Concentrate N30-A can be used on lawns, playgrounds, and other similar areas [where annoying insects are present]. Chemsico Insecticide Concentrate N30-A controls ants, crickets, chinch bugs, fleas, brown dog ticks, and other listed lawn insects. One 64 fl oz bottle covers 5,000 sq ft of lawn. [Chemsico Insecticide Concentrate N30-A kills and repels insects that invade your yard and attack your lawn. One 64 fl oz bottle will treat 5,000 sq ft of lawn.]

GUARANTEED ANALYSIS [24-0-0]

Total Nitrogen (N) 24%
 12% Urea Nitrogen
 12% Other Water Soluble Nitrogen*

Derived from: Urea-triazone solution. *12% Slowly available nitrogen from urea-triazone solution

Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.regulatory-info-sb.com>

[KILLS] [CONTROLS] [INSECTS CONTROLLED]

[Use [Chemsico Insecticide Concentrate N30-A] as directed to treat the following insects in your lawn:]

Ants, armyworms, crickets, cutworms, chinch bugs, fleas, grasshoppers, mole crickets, mosquitoes, brown dog ticks, and sod webworms.

[PEEL HERE PRESS TO RESEAL
 Read all instructions inside before using.]

STOP. READ ENTIRE LABEL BEFORE USE.**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For outdoor use around the home only.*

Keep people or pets off treated areas until the spray has dried.

WHEN TO USE

For best results, treat in June - August when insects are active. However, this product is effective anytime during the growing season. Spray when insects or their damage are first noticed.

Do not treat lawns during periods of stress, i.e. heat, drought, flooding, disease, insects, excessive fertilizer, herbicides or pesticide use, etc.

Do not apply when temperatures are above 85°F as injury to lawn can occur.

WHERE TO USE

[Controls the listed insects commonly found in cool season and warm season grasses.] May be used on bent, Bermuda, bluegrass, fescue, Irish moss, Merion, perennial rye, and St. Augustine lawns.

HOW TO USE

Determine the size of the area (lawn) to be treated. To calculate square feet, multiply length by width.

Start at the farthest point to be treated and work backward so you don't walk over treated area. Walk at a steady pace and spray using a side to side motion, slightly overlapping the treated area.

The entire [64 fl oz] bottle will treat 5,000 sq ft of lawn. Refer to [sight gauge] [Easy-View] [Clear-View] measuring window] to guide coverage (when bottle is half empty, you should have covered half the area).

[HOW TO USE HOSE-END SPRAYER]

1. **Shake container well before using.**
2. Connect a garden hose to the spray ready nozzle. [graphic] Make sure the large round water control dial on the nozzle is in the "OFF" position (tab is vertical). [graphic]
3. Turn on water at faucet. Extend hose to the farthest point of area to be treated.
4. Twist the small star-shaped product control button to align the flat portion with the lock tab. Push the button in to open. [graphic]
5. To BEGIN spraying, point nozzle towards lawn and turn the large round water control dial to the "ON" position (tab is horizontal). Water will automatically mix with the product. [graphic]
6. Walk at a steady pace while spraying the area.
7. To STOP spraying turn large round water control dial to the "OFF" position. Push in opposite side of small star-shaped product control button to close. Turn star-shaped button so that it is no longer aligned with the flat portion of the lock tab. Turn off water at faucet.
8. To relieve pressure, turn large round water control dial to "ON" position and wait until water stops spraying before removing nozzle from hose.
9. To STORE unused product, place in cool area away from heat, direct sunlight or open flame. KEEP FROM FREEZING.

USE TIPS

- Lawns should be no taller than 3 inches at time of treatment.
- It's a good idea to mow 1 to 2 days before treating.
- A lawn will typically utilize 1 to 4 pounds of nitrogen per 1,000 sq ft each growing season. When applied as directed, this product supplies 0.19 lb of nitrogen per 1,000 sq ft with each application. Using this product with the other 4 *Chemsico Annual Lawn Program* products will provide one pound of nitrogen per 1,000 sq ft each growing season. [Using Chemsico Insecticide Concentrate N30-A with the other products in the *Chemsico Annual Lawn Program* will provide one pound of nitrogen per 1,000 sq ft each growing season.] Consult your local agricultural extension agent for the proper amount of nitrogen to be applied in your area.

STORAGE AND DISPOSAL

Storage: Store in cool dry area. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Washing hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco will reduce exposure.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for further treatment advice. Have the product container or label with you when calling the Poison Control Center or doctor.

Environmental Hazards

This pesticide is extremely toxic to fish. Do not apply directly to water. Drifts and runoff from treated areas may be hazardous to aquatic organisms in treated areas. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

[Attach to hose & spray] • The easy way to control insects and fertilize your lawn • No spreading . . . no complicated mixing • Measuring window on bottle • Covers 5,000 sq. ft. • For fast lawn greenup • For [dark,] green lawns FAST! • For a thicker, greener lawn • Use anytime spring or summer [to fertilize and control weeds] • Use anytime [your lawn needs insect control] • Third of 5 steps to a beautiful lawn • Use June - August • Apply in early summer • Part of the Chemsico Annual Lawn Care Program • Application reminder sticker for your calendar included • Feeds up to 2 months • 64 fl. oz. treats 5,000 sq ft • For an insect-free lawn • Spray-ready • For a [green] [thick] [hardy] [dense] lawn • Easy-to-use - just attach to hose and spray • Ready-to-use • No mixing required • Premixed • Concentrated formula covers up to 5,000 sq ft • Covers an average size [U.S.] lawn • Won't burn your lawn • Step 3 of Chemsico's Annual Lawn Program • Part of a total lawn care system • Only takes 15 minutes to apply • Simple system • Applies in minutes • Works on cool and warm season grasses* • High nitrogen for fast green-up • [For] green lawn, brown weeds • One Step - Just water in • Easier to use than granular fertilizers • Feeds faster than granular fertilizers • Lasts as long as granular fertilizers • Comfortable handle • Easy grip handle • Most technologically advanced sprayer available • 24 hr. green up • Fast acting • Aim & Spray • [Feeds fast] and keeps feeding for 2 months • Fast feeding, long lasting formula • No surge growth

Kills the most troublesome outdoor insects, which destroy lawns or annoy pets and people. (Refer to label directions for specific insects controlled.)

Contains permethrin, a long lasting insecticide that provides contact control of many "hard-to-kill" sucking and chewing insects.

Visit our web site at [www . . .](http://www...) and register to receive *Chemsico's Annual Lawn Care Program* reminders. We'll let you know via e-mail when it's time for you to use one of the Chemsico's lawn care products on your lawn. You'll get five e-mails per year starting with Chemsico's Lawn Food plus Crabgrass in the Spring and ending with Chemsico's Winterizer in Late Fall. We'll help you use the products at the right time and make sure you don't forget!

ALTERNATE HOSE-END SPRAYER DIRECTIONS

1. *Shake well before using.*
2. Connect attached spray nozzle to garden hose. Turn the water control "ON/OFF" valve on top of nozzle to the "OFF" position.
3. Turn on water at faucet. Extend hose to the farthest area of lawn to be treated.
4. Rotate the product control valve forward to open. This allows the contents to mix with water.
5. To begin spraying, point nozzle towards lawn and turn the water control valve to the "ON" position. The water automatically mixes with the product.
6. Walk at a steady pace while spraying using an even side-to-side sweeping motion, slightly overlapping treated areas. One 64 fl oz bottle will treat 5,000 sq ft of lawn. Refer to [sight gauge] [Easy-View] [Clear-View] measuring window to guide coverage (when bottle is half-empty, you should have covered half the area).
7. To stop spraying, turn the water control valve to "OFF". Rotate the product control

9/11

valve to upright position to close. To relieve pressure, turn water "ON/OFF" valve to the "ON" position before removing nozzle from hose.

8. To STORE unused product, place in cool area away from heat, direct sunlight or open flame. KEEP FROM FREEZ-ING.

Attention: George LaRocca
Product Manager 13

Subject: Notification of label change per PR Notice 2001 -6
Chemsico Insecticide Concentrate N30-A
EPA Reg. No. 9688-161

Dear Mr. LaRocca:

Please find the enclosed notification per PR Notice 2001-6 to update the storage and disposal statement. We are also taking this opportunity to change the format of this label to reflect our current 2-column landscape format.

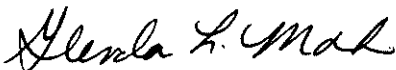

This notification is consistent with the guidance of PR Notice 2001-6 and the requirements of EPA regulations at 40 CFR 156.10 and 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 2001-6 and 40 CFR 156.10 and 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

The following documents are enclosed in support of this submission:

1. Application for Pesticide (EPA Form 8570-1)
2. Five copies of the proposed label with changes highlighted
3. One copy of the final printed label.
4. One copy of the EPA stamped approved label

Please call me at 1-800-242-1166, Ext. 2727 if you have questions or need further information. Thank you very much for your attention to our application.

Sincerely,

Glenda L. Mah
Manager of Product Labeling.
