DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For home use.*

(Icon) People and pets should not be allowed in treated areas until spray has dried. Do not use on pets.

SHAKE WELL BEFORE USING

[SPRAYER INSTRUCTIONS

[How to prime and care for your sprayer:]

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10 - 15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.]

INDOORS (Graphic showing Indoor treatment sites.)

Avoid contamination of food, feedstuffs and domestic water supplies. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

For **Drywood Termites**[polillas] treat infested areas and areas likely to be infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids (between stud walls and spaces between wood and concrete [foundations] and along cracks. When treating for exposed drywood termites pay particular attention to areas around windows, ventilation pipes and other areas that may allow termite entry into the home.

Note: Drywood termites will be killed only if they come in contact with this product. Use of this product to control Drywood termites should not be considered as a substitute for treatment by a professional pest control operator.

Spray areas where cockroaches, Palmetto bugs, ants, crickets, water bugs, silverfish and spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations. Repeat application after eight weeks or earlier if re-infestation occurs. For ants, apply to ant trails, around doors and windows and wherever else ants may find entrance.

For control of fleas and brown dog ticks, thoroughly spray pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where fleas and ticks may be present. Pet bedding should be replaced with clean fresh bedding after treating the area. **Do not treat pets with this product.** To control the source of flea infestations, pets should be treated with a product registered for application to animals.

OUTDOORS (Graphic showing Outdoor treatment sites.)

For **Tree termites** (spp. *Nasutitermes*)[comejenes] treat specific areas where termite trails and nests are seen. Make holes in the nest and apply enough product to saturate the nest. Thoroughly wet termite trails going into the nest. Wait at least 24 hours before removing treated nest.

Flies, mosquitoes: For use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever insects may enter the room. Also spray surfaces around light fixtures, on porches, in garages and other places where insects alight or congregate. Repeat as needed.

Ants, ticks (including ticks which transmit Lyme disease), crickets, fleas and earwigs: For treatment of infestation of these insects in areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. When treating for ticks, give special attention to areas frequented by pets. For ants, thoroughly wet hills and runways.

STORAGE AND DISPOSAL

Store in cool dry area away from heat or open flame. Securely wrap original container in several layers of newspaper and discard container in trash.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Harmful if inhaled. Avoid breathing vapor or spray mist. Removing and washing contaminated clothing before reuse may reduce exposure.

First Aid

If inhaled: Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. Call a Poison Control Center or doctor for further treatment advice. Have the product container with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This product is toxic to fish and other aquatic organisms. Do not apply directly to water.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
